

The Order to Cash Company

Do any of these challenges resonate with you?

- DSO issues
- Invoicing errors that cause delays
- Manual email process and routing issues
- Manual invoice entry into customer portals
- Several clerks doing manual entry versus collections, etc
- Very little insight into invoice statuses & inability to take action
- Different customers require invoices in different formats and you struggle to find the resources to meet these requirements

If so, Invoice automation could be a benefit to your company providing large efficiency improvements and substantial savings.

Amalto e-Invoicing Solution

**INTEGRATE
SEAMLESSLY
WITH YOUR
CUSTOMERS
AND THEIR
PORTALS**

Amalto, creates a click and send out of your ERP system and delivers 100% of your invoices to your customers

- Via Network and Customer Direct Portals
- Email
- Postal Service

A fully managed service, that allows you to send us an invoice in any format and we handle converting it into whatever format your customer requires.

We bring your customer status responses back into your ERP system so you don't even have to go into their Portals.

**Savings of \$500K to \$1M can be achieved
based on your revenue and situation**
