## Ease

### Taking the headaches out of administration so you can focus on benefits

Ease is an online benefits enrollment platform built for insurance brokers, employers and employees. Ease makes it simple to set up and manage benefits, onboard new hires and offer employees one destination for all of their human resources information.

Online enrollment with Ease can help brokers:

- Grow: Win new business and expand your clients with technology.
- Protect: Deepen your client relationships with a modernized benefits experience.
- Digitize: Manage one location for all your agency and client information.

### Keep your payroll and benefit platforms in sync.

Streamline your HR processes by integrating ADP Workforce Now® with Ease. With automated, daily, changes-only demographic data synced from ADP to Ease and daily deduction data synced from Ease to ADP, it's easy to maintain accurate employee and payroll data. Need a payroll update even sooner? HR admins can run the changes at any time with the click of a button.

### Reduce duplicate data entry.

When you set up new hires in ADP Workforce Now, their data is automatically added to Ease, allowing employees to easily and quickly make their benefit selections online.

### Automatically send benefit changes to ADP.

Deductions from open enrollment or any other benefit changes are automatically sent to ADP Workforce Now throughout the year, no matter the month. Employees can add dependents and make other changes to their plan and see the change in the appropriate pay period.
