# The Challenge: Seamless Connection between Oracle HCM to ADP

With rapid growth, **HR** couldn't keep up with manual data entry.

Automation offered the clear fix — but IT was stretched thin and lacked the integration expertise to implement data connectors quickly and correctly.

2/6 SWIPE ►

# The Transformation: Automated Data Flow from Oracle HCM to ADP

The company turned to Flexspring to automate employee data flowing from Oracle HCM into ADP with **hands-free custom data connectors**. New hires and employee changes now sync automatically, so HR stops entering the same data twice.

Automation saves Fedcap Group's HR team 30 minutes per new hire.

- ✓ No more retyping data
- ✓ No more manual uploads
- ✓ No more delays

Real results.  
Real praise.

*“With new hires, **integration saves us at least 30 minutes for each new employee we bring on board** by automating the data from Oracle to ADP. No more double-data entry! Also, the Flexspring monitoring tool is great. I know exactly what’s going on every day. **The integration is perfect, and we couldn’t ask for anything more!**”*

— TAMMY MICKELSON,  
CHIEF INFORMATION OFFICER, FEDCAP GROUP
