

ActionTrac COVID Vaccine Tracker

ActionTrac Vaccine Tracker solutions are highly scalable, fast to implement and provide full administration and management reporting.

Vaccine Card Tracker

Vaccine Card Tracker enables employees to easily upload a copy of their Vaccine Card directly from their mobile device. The information is displayed right away for management to view. The Tracker dashboard also enables management to sort by location and department.

Vaccine Stage Tracker

Vaccine Stage Tracker allows companies to monitor each vaccine stage (first and final vaccine). Optionally companies can also track employees who want to opt out of getting a vaccine or any other data points that are important to monitor.

Vaccine Tracker is brought to you by the leading COVID Screening provider. ActionTrac COVID Protect solutions are used by companies across industries throughout the USA.
