

ClockShark

Frequently Asked Questions

How do I integrate my data with ADP®?

If you already have a ClockShark account, you'll need a connector, available through ADP Marketplace, to activate integrations between your ClockShark and ADP accounts. If you're not already a ClockShark user, you can start a 14-day free trial of ClockShark through ADP Marketplace, then choose to purchase a subscription.

How do I purchase and activate the ClockShark Connector for RUN Powered by ADP® or ADP Workforce Now®?

Clients can review the ClockShark Connector details on ADP Marketplace and select "Buy Now" to easily purchase and activate the integration.

How much does the ClockShark Connector cost?

Users should log in to ADP Marketplace to view pricing information.

How much time does it take to activate the Connector integration?

There is a two-step verification process that takes two to three minutes, with one click from within ClockShark and one click from within ADP.

Is the ClockShark Connector bidirectional?

The Connector syncs your ADP data with your ClockShark account and exports completed employee timesheets to RUN Powered by ADP or ADP Workforce Now.

What data fields do ClockShark integrations with ADP support?

All ClockShark solutions on ADP Marketplace sync the following ADP data fields with your ClockShark account:

- Employee name
- Employee email address
- Pay rate code/value
- Cost number

How quickly can I set up ClockShark?

Once in your account, you can get everything set up in a couple of hours and have your employees start clocking time that same day.

Does ClockShark help with job costing?

Yes. ClockShark helps by tracking the hours your employees work in each specific task/trade throughout the day, allowing you to allocate that labor cost to the specific code.

What kind of GPS functionality does ClockShark have?

ClockShark tracks the GPS location of every clocking event for the employee, pings employees' location every 10-15 minutes and uses a jobsite-based geofence.

About ClockShark

ClockShark is a powerful, simple-to-use GPS time tracking and scheduling solution. With ClockShark's GPS mobile app, you can track time, schedule employees, view employee locations and categorize job costs, then see everything in real time in a central web-based dashboard. ClockShark not only helps make your payroll process painless and accurate, but also helps simplify managing your team out in the field by showing you employees' location and quickly and easily distributing their schedules.
