# Powerful Healthcare Courses With a Streamlined Approach

MedTrainer Learning is an enterprise cloud-based software with the largest proprietary catalog of healthcare content curated specifically for US healthcare companies. We pride ourselves on enabling our clients to seamlessly manage regulatory, compliance, and continuing education training for healthcare organizations of all sizes. Be survey ready; keep your staff safe and trained with MedTrainer.

- Avoid productivity loss associated with in-person training. Stay in compliance with highly-regulated topics designed to address needs of front line healthcare professionals, office staff, providers, administration, board members and more.
- Forget paper tracking for training. Know which provider completed their coursework and when. Easily produce and schedule reports by department, location, and role for internal reporting as well as external for surveys, inspections, and accreditation.
- Onboard one or thousands of new employees from multiple facilities, with simple workflows that automate course assignments or create and save custom curriculums known as course bundles
- Stop spending countless hours reminding staff of their necessary training. Reminders are automatically sent based on due dates.
- Create courses specific to your organization and upload them with MedTrainer's easy-to-use authoring tool. Assign for acknowledgement to keep your team aligned.

**“Previously, I had to dedicate significant time to putting all the training materials together, researching the content, and then actually facilitating staff training. Since we have adopted MedTrainer, our time savings have been substantial and our staff satisfaction has been noticeable—and that is priceless.”**

– Kelly Durrall, Chief Operating Officer and Quality Improvement Director, Community Health Centers of Western Kentucky
