Document, Distribute, Collaborate, and Comply

Document, Distribute, Collaborate, and Comply

MedTrainer Compliance is cloud–based software that digitizes your healthcare compliance documentation within one single platform of truth.

DOCUMENT AND POLICY MANAGEMENT

- Organize all of your documents and policies in one unified repository accessible from any computer with internet access. Less paper, more space!

- Healthcare compliance is rapidly evolving. Be 100% confident that current versions of any document are acknowledged and accessible by staff. Easily see who has acknowledged new procedures and who hasn't.

- Collaborate on new documents within the same platform using our policy authoring tool. Get feedback and approval in real–time all in one place.

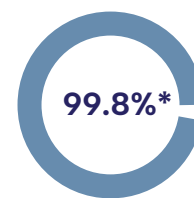

Easily collaborate on policies and documents with internal and external stakeholders

What MT | Compliance Customers Are Saying:

99.8%*

99.8% passed all surveys or inspections in the past year.
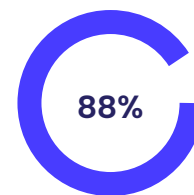

88%

of customers say they are more compliant using MedTrainer.

40 HOURS

saved on average per week by MedTrainer customers.

*42% of MedTrainer customers reported experiencing a survey or inspection within the past year.

MCompliance

INCIDENT REPORTING

- Eliminate paper incident documentation. Create, Search, review, search, and monitor current and past incident reports across your organization's departments and locations.
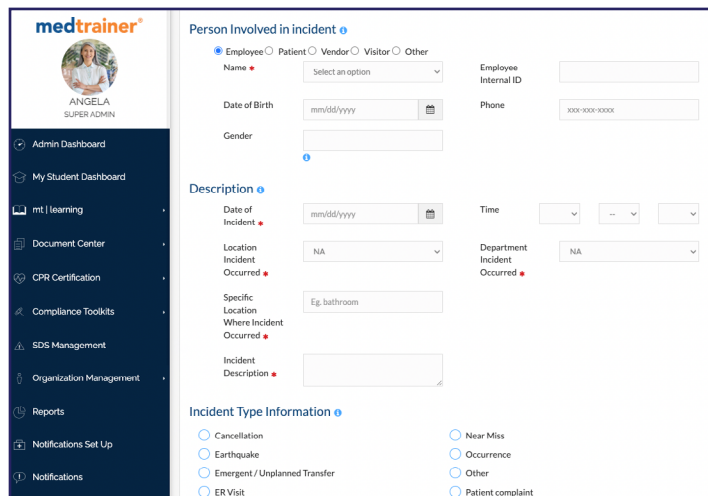

- Collect incident data based on your needs and the specific situation. With customizable forms, you can capture every necessary detail.

- Escalate incident reviews and reporting to the right internal or external stakeholders with an automated workflow from any computer. Our secure system routes these reports and ensures they stay confidential.

- Easily report on incident data to understand ongoing risk, areas of improvement, and upward and outward reporting needs. Streamline data collection for board reports and staff communication.

Quickly build and deploy custom incident reporting forms

"I love any admin feature that saves us valuable time. The reporting capabilities make compliance tracking easy and completely eliminated the headache of managing that on paper."

– Cathy Wasson, System Operations Manager and HIPAA Security Officer, Apple Valley Medical Clinic

CONTRACT MANAGEMENT

Organize and review any contract from building leases to vendor agreements, offering visibility into terms, pricing, expiration, responsible parties, and more.

SAFETY DATA SHEET MANAGEMENT

Build, maintain, and administer over a digital SDS library enabling organizations to comply with hazard communication standards.

SAFETY PLANS

Easily create and distribute safety plans to keep staff prepared and informed for workplace hazards. With our in–app safety plan templates, maintain OSHA Safety Plan compliance in minutes not hours.

The accessibility of the classes is excellent, and being able to complete them on your phone or on the computer/iPad is a big help. We currently use medtrainer for HIPAA, osha, and CPR certifications, and the ability to track all the courses from anywhere is great.

★★★★★ Oct 20, 2020

MedTrainer makes it very easy to keep track of everything all in one place. Instead of having multiple managers keeping inconsistent records, this makes it very easy to have everything we need. We also use the contract management peice which makes it very easy to know which contracts are coming due for renewal and don't auto renew due to being overlooked. We've also recently added the modules for creating our own training courses and for onboarding. These take some work on the front end to implement, but they make the process so much easier. It's really helped with consistency.

MedTrainer can bundle courses together that can then be easily assigned to user within our practice. This makes training uniform and complete!
