CREDENTIALING OVERVIEW

Gain Confidence in Your Credentialing Process

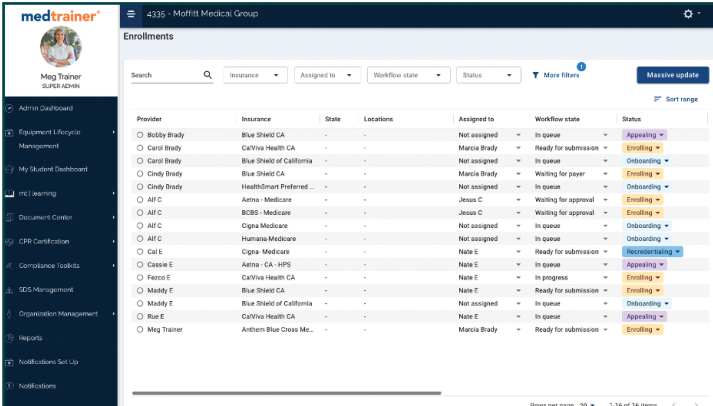

Gain Confidence in Your Credentialing Process

MedTrainer Credentialing cloud software accelerates the manual process of credentialing through automation and clear visibility into your credentialing workflow. Don't let missteps and delays in this process cost your organization real money:

- A payer's process can take more than a month to determine reimbursement. Multiple procedures and thousands of dollars can transact in that same timeframe. Without good visibility, tracking, and proper credentialing, revenue can fall through the cracks or worse — be denied.
- From primary source verification, provider data & document management to privileging and payer enrollment, credentialing is a mountain of manual paperwork and spreadsheets that pull staff away from other tasks.
- Credentialing employee turnover often leaves organizations without credentialing expertise and visibility, creating duplicate work and bottlenecks.

The MedTrainer platform is curated by MedTrainer healthcare compliance and credentialing experts with decades of experience.

LET MT | CREDENTIALING HELP YOU:

Provider	Insurance	State	Locations	Assigned to	Workflow state	Status
Bobby Brady	Blue Shield CA	-	-	Not assigned	In queue	Applying

- **Easily manage your provider network** – from initial credentialing to continuous monitoring
- **Expand revenue by minimizing time delays** for enrolling providers into payer networks
- **Understand your provider exclusions**, with a unified view
- **Stay on top of your re-credentialing efforts** to maintain your payer status and maximize reimbursement outcomes

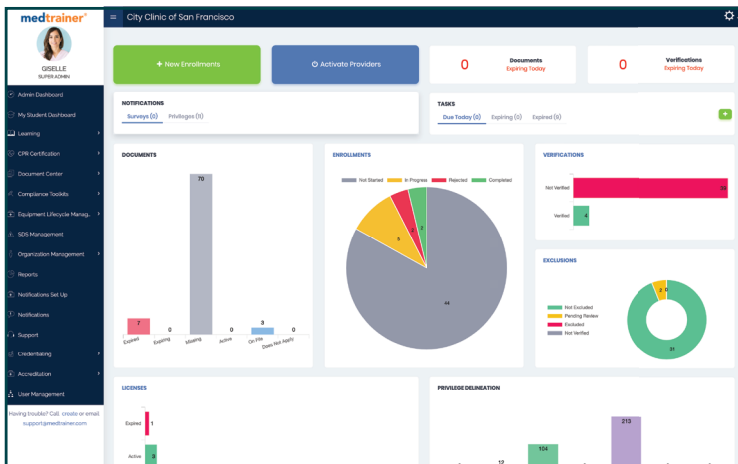

Our technology also helps with:

Primary Source Verification | License Verification | Background Checks | Provider Data & Document Management | Enrollment Applications & Tracking | Provider Privileging | Automated Alerts | Reporting & Dashboards

Put Your Credentialing Process in Safe Hands

With MedTrainer's Credentialing Services, specialists will manage your credentialing needs so you can focus on scaling your business. Use this upgraded service to keep revenue flowing or grow your organization.

- Balance your credentialing workload regardless of your provider count or in which state your organization resides
- Remove the stress of employee turnover – be confident our credentialing specialist can provide additional support to an existing team or process
- Reduce errors in your credentialing process and ensure that your providers are re-credentialed on time
- Maintain visibility into our team's credentialing process via the MedTrainer Platform

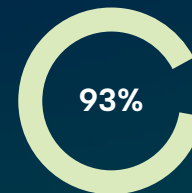

Our team manages the credentialing process for hundreds of companies

Enrollments | Primary Source Verifications | Provider Data & Doc Management | Exclusions Monitoring | Doc Maintenance | Re-credentialing | Privileging | Reporting & Dashboards

What MT | Credentialing Customers Are Saying:

On average, **mt | credentialing** speeds up credentialing by three weeks.

93% say primary source verifications are faster with MedTrainer.

95% say payer enrollments are faster with MedTrainer.

93% say exclusion checks are faster with MedTrainer.

On average MedTrainer Credentialing Services were able to help **customers reduce credentialing expenses by 50%**

Failing to re-credential on time often results in not getting paid for services rendered and a lengthy re-enrollment process.
