

Workforce Dimensions and Passport Planning and Scheduling

Features

- » Extensive visibility into employees' Kronos® information
- » Scheduling of people to tasks or crews
- » Available tasks published to allow employees to self-schedule
- » Drag-and-drop task assignments with dynamic skills checking
- » Route planning and sequencing

Benefits

- » Minimize travel times and mileage costs
- » Validate skill sets, balance workloads, and control overtime
- » Achieve route optimization and increase productivity
- » Empower employees to improve operations and customer satisfaction
- » Provide employee control over their work-life balance

Every aspect of the **Workforce Dimensions™** solution — the underlying architecture, integration, user experience, functionality, data access, delivery, and support — is designed to help you optimize your people. Powered by the industry-first **Kronos D5™ platform**, Workforce Dimensions provides a breakthrough employee experience and an unprecedented level of operational insight into your workforce management practices. Whether your goals are to increase productivity, improve compliance, control labor costs, or achieve better business outcomes, Kronos® provides the technology tools you need to manage your workforce of the future, today.

As the enterprise leader in workforce management applications, Kronos understands the need for strong integrations between software applications. That's why we've built a robust developer portal with access to our API layer. The Workforce Dimensions Technology Partner program is designed to facilitate this interoperability and drive business results.

PASSPORT

Passport Corporation delivers powerful planning, data collection, and route execution management software for field service organizations. Our applications allow you to enhance team productivity, increase operational efficiency, and optimize performance. Gaining access to planned versus actual analytics of your data uncovers previously hidden opportunities for significant growth.

Passport's software applications span the frontlines to the back office, complementing existing systems and business processes. We support all the Workforce Central features that you love, plus the extended power and flexibility of Workforce Dimensions. Easy-to-use mobile solutions for time, labor, and job tracking enable accurate data collection, even when offline, and real-time visibility into frontline operations. Interactive back-office solutions automate job assignment, scheduling, location tracking, mapping, optimized routing of field personnel, and wireless dispatch of work orders to frontline employees.

As the mobile solutions partner for market leaders such as Kronos, Passport is the expert in frontline labor tracking to streamline payroll, improve job costing, and increase operational efficiency.

Maximize productivity with optimized crew scheduling, territory planning, or route sequencing

Passport equips you with all the info you need, in a configurable and intuitive dashboard, to create the most optimized plan. Scheduling the best people to each task is possible through a robust interface and rules engine that provides extensive visibility into each employee's Kronos information, such as skill set, availability, scheduled time, timecard status, vacation time, and more. Task assignments are real-time- and location-based and are configurable to your workflow.

Manage your frontline resources with a feature-rich dashboard, including:

Geospatial mapping – Streamline routing with drag-and-drop functionality.

Route optimization – Minimize travel times, mileage, and costs.

Region planning – Find poorly planned activities with quick and easy visual cues that make changes simple.

Integrated views – Validate skill sets, balance workloads, and control overtime.

Wireless dispatch – Techs can be both responsive and productive. Schedule days ahead, and react to developments during a shift.

Real-time monitoring – Track where your employees are and where they are scheduled to be next.
