

# Workforce Dimensions integration

## Synchronize employee setups between UKG Dimensions and Emburse Certify

If you think the first day of a new job is hard on the employee, imagine it from the organization's perspective. Typically, a new hire first gets set up in your human capital management (HCM) solution. Then, in rapid succession, the individual has to be re-created across a spectrum of systems that allow them to perform their work. That includes Certify for expense management and reporting.

An exciting new API-based integration between Certify and UKG cuts some of that user setup frenzy. Once implemented, users activated (or deactivated) in Workforce Dimensions are immediately mirrored in the Certify solution. This swift system reproduction improves compliance while decreasing the potential for fraud.

## Integration highlights

- API-based and easy to implement
- Decreases user setup times across multiple systems
- Synchronizes eight user data points instantly
- Employee activations and deactivations are communicated instantly to Certify
- Helps prevent fraudulent expense payments to deactivated employees

## Better Together: UKG Dimensions + Emburse Certify

### WHY CERTIFY

Certify simplifies expense management by automatically creating reports for employees, streamlining manager approvals, and making reimbursement and reporting easy for accountants.

They deliver a simple, end-to-end solution, plus mobile tools that make life easier for travelers and the best customer support in the business. Users around the world adore Certify for its:

- Web-based workflows automate report creation, policy enforcement, and approvals
- Pre-approvals give budget holders the ability to approve or deny costs in advance
- Seamless data integration across all travel, accounting, and enterprise systems
- Complete reporting visibility for smarter budget and spending decisions
- Available in 64 languages and 140 currencies including end-user currency conversion override and real-time rate conversions
- 99.9% solution uptime
- Global user support 24 hours a day (M-F) plus live chat and online help
- Ongoing development of innovative features that improve your experience

### UKG + EMBURSE DEEPEN CUSTOMER RELATIONSHIPS

- Drive client satisfaction and retention by delivering complementary capabilities
- Enhance value proposition by delivering our custom tailored solutions
- Accelerate customer acquisition by filling gaps and partnering on new leads

## Integration Details

### IMPLEMENTATION

A member of Certify's implementation team assists with enabling the feature. Customers will enter a few key pieces of information that help connect their Certify and Kronos accounts. Once configured, Certify customers have the option to schedule the sync data daily or on-demand as needed.

### UKG DIMENSIONS

The following user data points are synchronized once the integration is established:

- Email
- First Name
- Last Name
- Employee ID
- User's First Approver
- Language
- Currency
