

AI Recruiting Automation

Maximize the Value of Your Team and Technology

Consolidate Internal and External Direct Sourcing

Access the largest proprietary talent pool in the industry with 850+ million profiles sourced from 80+ channels, combined with your internal ATS and internal job boards, to auto-search and deliver a de-duplicated list of high-quality candidates in minutes.

Candidate and Applicant Scoring and Ranking

Matched talent is scored and ranked based on their compatibility and likelihood of success across 7 multidimensional data points and hundreds of attributes, drastically improving candidate quality and time to submit.

Optimize Engagement with Centralized Tools

Quickly access candidate contact information and personalize outreach through talk, text, email, drip campaigns, ChatGPT and chatbot features - effortlessly keeping talent nurtured and engaged.

Generate Applications with AI Driven Recruiting

Applicants on Demand uses AI to source, screen, match, and engage candidates, delivering completed applications from high-quality candidates to your ATS.
