CLEARCOMPANY LEARNING

Learning Content

Create and Curate The Learning Content Your Learners Need

Create Your Own Content

AI Course Builder

Create custom learning content in minutes with the embedded AI Course Builder! Slash content creation costs by 75% by transforming your existing policy documents, PDFs, and slides decks into interactive, engaging learning content. Use AI to generate courses based on a few prompts to deliver personalized learning experiences to your learners. Streamline onboarding, upskilling, and compliance programs without being an instructional design expert!

Chameleon Cloud

The most robust content authoring tool on the market! Loaded with thousands of pre-built templates to quickly create visually stunning learning content that will engage learners. Chameleon Cloud offers efficient ways to scale content to multiple locations and translations without multiple files. Perfect for organizations with small L&D teams looking to produce and manage engaging content quickly.

Learning Content Libraries

ClearCompany Ultimate Content Library

Featuring nearly 10,000 courses, curated from industry-leading learning content providers, the Ultimate Content Library is relevant to 99% of companies today. Based on in-demand topics like leadership development, project management, and state-specific anti-harassment training, this library helps learning leaders quickly scale up learning programs.
