# AI-Powered Video Coaching

## Intelligent Evaluations for Measurable Results

### Develop Critical Skills With Enhanced Coaching

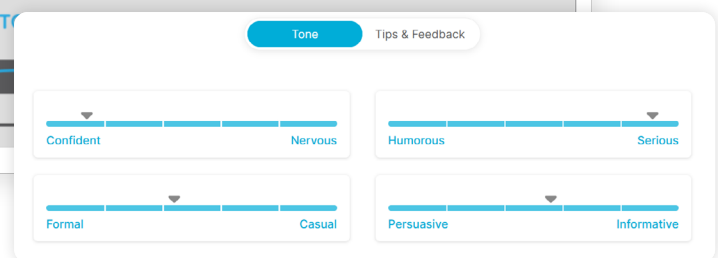

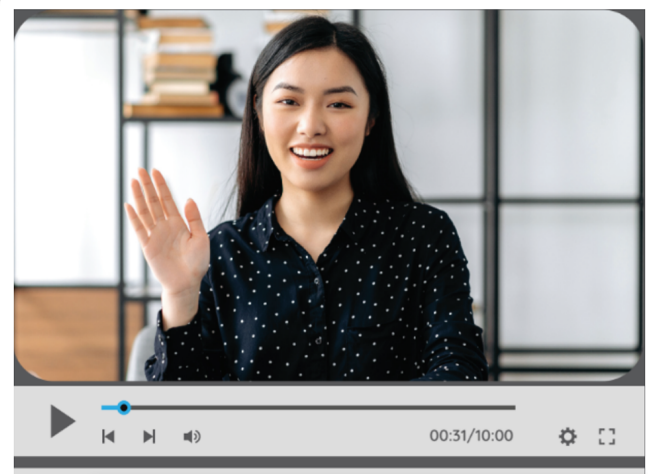

ClearCompany Learning's built-in Video Coaching helps teams practice and showcase real-world skills in a learning safe-space. Employees complete an assessment and AI provides automated coaching, scoring, and personalized feedback, allowing managers and administrators to focus on more strategic coaching. The result? A sharper, more skilled workforce.

### Smarter Coaching, Instant Feedback, Better Training

Admins upload training content and establish learning objectives, and AI takes it from there. ClearCompany Learning's Video Coaching provides real-time feedback with AutoAnalysis, evaluating both speech content and performance metrics, including:

- **Speech Clarity**
- **Rate of Speech**
- **Tonal Analysis**
- **Filler Word Usage**
- **Custom Criteria**

Plus, AutoAnalysis uses AI to evaluate speech content based on custom keywords and phrases. Help teams pinpoint strengths and areas for improvement without the need for cumbersome manual review.
