

"I cannot comment on the cons because I never run across anything. I can say that it is updated on a regular basis and is a great learning tool no matter what industry you are in." – Paquita Nelson, Driver Relations Specialist, ProDrivers

## Unique Learning Experience

- Create individualized learning experiences
- Flexible interface resulting in a familiar look and feel
- Expanded learning experience with resources external to the LMS using xAPI

**The Brainier LMS feels like an immersive, firmly entrenched portion of your brand experience and learning, rather than a third-party add-on.**

## Mobile, Global, Social

- Access anywhere, anytime on any device
- Powerful social and collaboration tools
- Multiple language support for content and LMS pages

**Brainier replaced traditional LMS barriers with doorways to make access and education easier and more effective with the Brainier LMS.**

Powerful, flexible and scalable learning platform that helps companies of all sizes achieve breakthrough results by educating, engaging and empowering employees.

## What is the Brainier LMS?

The Brainier Knowledge Solution from Brainier is a **feature-rich, price-leading** learning management system for any organization size or configuration. When compared to the competition in the Training and Development market space, customers find Brainier's ease-of-use approach, cost-effective solutions, and superior technology provides enhanced methods to engage learners, support training and development management, and **exceed overall business objectives.**

## Why customers use Brainier?

- Ease of Use
- Personalized Customer Service
- Customer Inspired Solutions

"You have everything you need to build something far bigger than yourself"
