# The Challenge: Automating Payroll Data from ADP Workforce Now<sup>®</sup> to NetSuite

Manually transferring bi-weekly payroll files was a tedious, error-filled process. **Inputting multiple payroll files and updating employee information** occupied a full-time employee's entire 8-hour day every week and significantly reduced productivity.

# The Transformation: ADP Workforce Now Integration With NetSuite

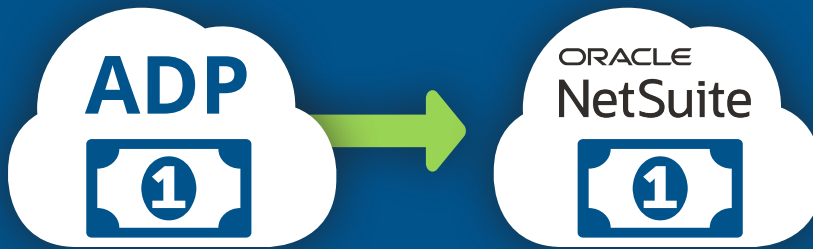

The Corporate Controller asked the HR data integration experts at Flexspring for a **custom data connector to free the Finance department** from the time-consuming task of manual double-data entry.

3/6 SWIPE ►

# The time-saving integrations included:

1

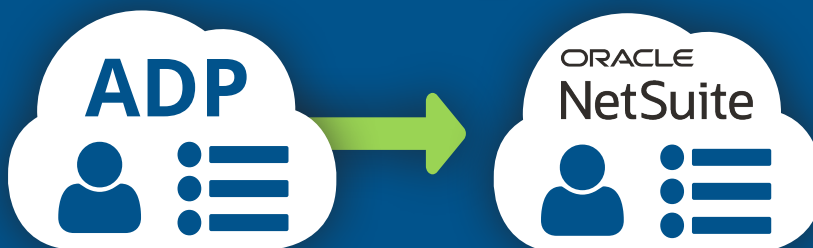

## ADP Payroll to NetSuite Journal Entries

Automation sweeps up the payroll file and without any risk of error from manual data entry successfully imports payroll journal entries as NetSuite general ledger entries.

2

## New Hires and Employee Updates from ADP to NetSuite

When a company hires a new employee or updates information in ADP, employee data automatically syncs in NetSuite in near real-time with the data needed for workforce management.

# Time-saving integrations results:

*“The biggest pluses for us with our ADP to NetSuite integrations are that they save time and eliminate human error in data entry. Before, we needed one person dedicated to manually making changes and updates into NetSuite, which took them about 8 hours per week. **Now we’re saving a day’s worth of time every week!**”*

— IRYNA SUKHANOVSKA, CORPORATE CONTROLLER, ROOSTIFY
