

# Workforce Dimensions and FieldCentric for Healthcare

## Features/Benefits

- » **SERVICE SCHEDULING AND ROUTE OPTIMIZATION** provides optimal appointment scheduling with real-time corrections that give caretakers more time with their patients
- » **SECURE SERVICE AND ELECTRONIC-VISIT VERIFICATION** that allows case management and data collection to flow directly into your existing Electronic Health Record (EHR) system
- » **TEAM COMMUNICATION AND COLLABORATION** with an easy-to-use communications platform that ensures the right information gets to the right people at the right time
- » **ROBUST REPORTING AND SIMPLE ADMINISTRATION** through intuitive team and user-management tools that are easily deployed across your organization
- » **AI-POWERED SUPPORT** that helps automate tasks and connects to enterprise-knowledge portals
- » **INCREASED CAREGIVER ENGAGEMENT** through real-time scheduling and tools that simplify workflows and improve caregiver performance and continuity of service quality

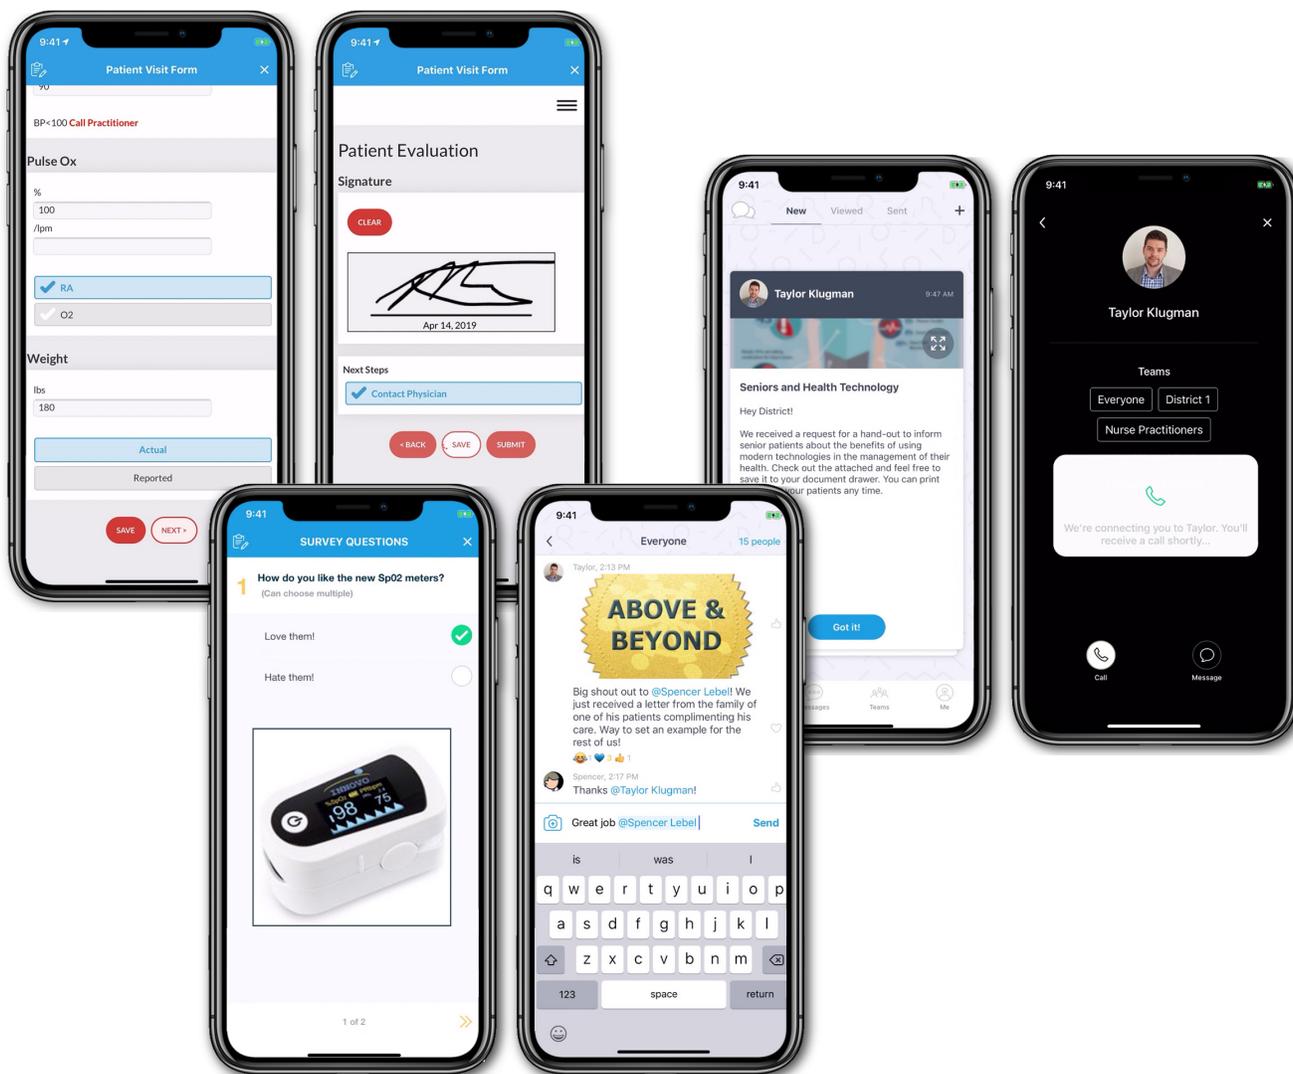

Every aspect of the **Workforce Dimensions™** solution — the underlying architecture, integration, user experience, functionality, data access, delivery, and support — is designed to help you optimize your people. Powered by the industry-first **Kronos D5™ platform**, Workforce Dimensions provides a breakthrough employee experience and an unprecedented level of operational insight into your workforce management practices. Whether your goals are to increase productivity, improve compliance, control labor costs, or achieve better business outcomes, Kronos® provides the technology tools you need to manage your workforce of the future, today.

As the enterprise leader in workforce management applications, Kronos understands the need for strong integrations between software applications. That’s why we’ve built a robust developer portal with access to our API layer. The Workforce Dimensions Technology Partner program is designed to facilitate this interoperability and drive business results.

FieldCentric for Healthcare is a secure platform for home-health scheduling, route management, electronic-visit verification, case processing, and team engagement. FieldCentric’s integration with Workforce Dimensions provides a simple mobile experience that enables home-healthcare services that comply with all the requirements of data security and service verification. FieldCentric provides all the tools home-healthcare services providers need to manage their schedules, collaborate with their colleagues, and give individualized care to their patients.

This simple, unified platform for home care eliminates time wasted managing schedules, traveling nonoptimal routes, and switching between multiple tools to perform quality service.

## How does the FieldCentric platform work?

The FieldCentric platform integrates with service providers' electronic healthcare record systems and leverages the features of industry-leading software to provide a unified mobile experience. The integration includes:

- Rodio, which provides the mobile workforce communications and team engagement platform
- Passport, which powers responsive scheduling and optimized route management
- Form.com, which ensures secure, point-of-care documentation that complies with federal privacy laws and dynamic procedure management
- Workforce Dimensions, which enables personnel timekeeping, scheduling, self-management, compensation, and payroll
