

Axonify™ + UKG

A modern approach to frontline learning that actually works

Axonify has partnered with Ultimate Kronos Group (UKG) so you can deliver highly effective training to your frontline employees. Why does Axonify work so well? Because the experience is fun, personalized and only takes three to five minutes a day right inside UKG Dimensions™, the solution they're already using every shift. And because it's designed to make learning stick, it changes behaviors in all the right ways to make a meaningful impact on business results.

Why it matters

A lot of important things happen on the frontlines of business. It's where products are made and problems are resolved. It's where safety matters most and sales deals close. And it's where customers are ultimately delighted or disappointed. Axonify makes sure your frontline employees remember to do the things that matter most to your business.

What's in it for you?

- Make learning irresistible with the learning platform that gets 83% average participation, 2-3 times a week
- Meet the learning needs of your frontline workforce where they already spend their time
- Weave learning into the work day in a way that's fun, fast, and proven to change behavior in all the right ways
- Use AI to tie business results directly back to your training programs
- Deliver learning in a way that our brains actually work — bite-sized and spaced optimally over time
- Provide leaders with critical insights into employee knowledge, compliance, participation, behaviors and performance
- Lighten your content load with access to an extensive library of micro-content

Here's why Axonify works so well to **fuel frontline performance**

People love the experience

Your learning solution only works if employees use it. A whopping 83% of users log in to Axonify 2-3 times a week. Why is it so engaging? Because built-in games, points and leaderboards keep them coming back to learn, again and again. And since the training is served up within Workforce Dimensions, and only takes 3-5 minutes a shift, it fits easily into their day.

It gets them doing the right things

The things your frontline employees do (and don't do) every day can make or break your success. Axonify continually reinforces the top things your frontline needs to know, using focused, bite-sized microlearning content and other techniques proven by brain science to make sure people remember what they've learned. And when our AI-powered adaptive engine detects behaviors that could be putting your business at risk, it kicks into gear to quickly fill knowledge gaps.

You can clearly see what's working

You never have to take our word that your training is working. With Axonify, you can finally know with absolute certainty how and where your training programs are impacting your business results—beyond completion rates and test scores. Our question-based approach generates massive amounts of data on each learner. Then we use machine learning to connect the data back to the KPIs your business cares most about.

We're all about your success

We've implemented Axonify hundreds of times, for some of the biggest brands in the world. From the beginning, it's all hands on deck, helping you prioritize and get off to a strong start. Then we keep on providing the support, content and other stuff you need to squeeze every drop of awesome out of Axonify. Forever.
