When I Work

January 2020

Description

When I Work offers an intuitive and unified suite of online employee scheduling and attendance products tailored to the modern hourly workforce. The easy-to-use mobile app ensures everyone has their schedule at their fingertips and employees are empowered to swap shifts on their own removing the manager as the middleperson.

Spend more time on what matters

Save an average of eight hours per week on employee scheduling and attendance¹. Spend more time working to grow your business and less time fighting fires.

"When I Work saves me 10 hours a week and enables employees to swap shifts and communicate regarding their schedules themselves." — Maureen Parsons, Program Manager, MSU Bozeman

Increase employee accountability

Send employees instant updates so they never have to ask when they work. Reduce employee no-shows and improve accountability across your team by up to 25 percent¹.

"Before, scheduling was such a hassle. I had so many no-call, no-shows, but there was nothing in place to hold my staff accountable. If I needed additional staff I had no way to add them to the schedule. Now, after my schedule is done, the rest is up to the staff. It takes a huge load off of your shoulders." — Denzil Pitts, Manager, Spectrum Catering and Concessions

Retain your best employees

Over 1 million employees use When I Work each month to communicate with their team, see their schedules and make changes, giving employees more control over their work lives and increasing their job satisfaction.

"I love [When I Work] ... It shows when I work my hours and who's on schedule with me. It's quick and convenient." — Elizabeth Rogers, employee using When I Work

Save money on labor costs

Easily track labor costs while you make the schedule and be notified of overtime when employees submit shift change requests.

"When I Work has allowed me to better manage my labor costs, saving me over \$10,000 annually in overtime." — David Porto, Co-Owner, Blue Plate Catering
