Comeet

Frequently Asked Questions

What is Comeet?

Comeet is an award-winning recruiting platform that brings a better experience to recruiters, hiring managers and candidates alike. The applicant tracking software (ATS) keeps everyone in sync so you can make the best hires on time.

How does Comeet integrate with ADP Workforce Now®?

Comeet integrates with ADP Workforce Now® to allow a seamless pass-off from hiring an employee in Comeet to managing their employee experience in ADP®.

Integrating with Comeet gives users single sign-on and the ability to automatically add new employees to ADP Workforce Now when making a hire in Comeet.

How do I get started with the integration?

Visit Comeet's listing page here and fill out the "Learn More" form to kick off the quick process.

When using the integration, how do I add a new hire to ADP Workforce Now?

When making a hire in Comeet, select the values required for the creation of a new employee in ADP Workforce Now. Once you confirm a candidate's hire in Comeet, the newly created employee is managed in ADP Workforce Now and can be found in the In-Progress Hires tab. New employee profiles are created with the following details:

- First name
- Middle name
- Last name
- Email
- Address
- Mobile phone
- Other phone
- Tax ID
- Tax ID type
- Tax ID country
- Start date
- Reason for hire
- Job title
- Department
- Business unit
- Location
- Company code
- Pay grade code
- Worker category
- Occupational classifications

About Comeet
