ADP Marketplace Partner Spotlight

Synerion Workforce Management

October 2019

Description

Synerion is a company that specializes in workforce management. Synerion's solutions on ADP Marketplace help ADP® customers automate their workforce rules, and meet advanced scheduling needs while maintaining an integrated solution with their ADP Vantage HCM® or ADP Workforce Now® system for payroll and HR processes.

Enhanced Scheduling

The Synerion integration with ADP helps meet requirements of scheduling intensive tasks within multiple industries that include retail, healthcare, hospitality and more, where business needs drive staffing necessities to build a schedule! Synerion's system can help customers implement call lists to fill shifts, enable shift swapping, or ensure schedules line up with budgets to optimize labor costs across the organization.

Robust Labor Costing Engine

Synerion has a deep history in the manufacturing industry, where understanding cost allocation is critical to operations. Synerion's labor costing module helps large scale manufacturing and logistics customers capture and track time against projects, lines, work orders, and integrate with their ERP systems in an optimized way that fits their organizational needs.

Flexible Data Collection

Allows customers to choose how to capture time in different environments which may be required while offline, in harsh surroundings, or within different compliance environments.

Deep Rules Engine

Synerion has a configurable rules engine, that allows customers with complex collective bargaining agreements or rate schemes to be able to be fully automated.

Synerion is working with ADP to bring best of breed solutions to ADP customers in a seamless way!

The Value of ADP Marketplace

Get everything you need to manage your people better, from hire to retire. Say goodbye to siloed systems, and hello to powerful HR apps all in one place — connected to your ADP solution.

- Easy and secure
- Seamless integration
- Single sign-on
