SAP Litmos

SAP Litmos Heroes: The best learning content library in the universe. Save your business from boring learning today!

With more than 2,500 off-the-shelf courses and videos, and 15,000 blended resources, SAP Litmos Heroes is your go-to source for highly effective, relevant corporate learning. Bright, fun, professionally animated courses are proven to engage learners and increase information retention. Why recreate the wheel when this level of high-quality content has been done for you? Trusted by hundreds of global brands, SAP Litmos Heroes enables learning professionals to save significant time and energy by eliminating the tasks associated with building content from scratch.

As a subscriber to SAP Litmos Heroes, you'll continually get access to a dynamic content library, which is regularly expanded and refreshed, completely free of charge. Your learners benefit from the latest offerings without you having to lift a finger. The courses integrate agnostically with your LMS (which we hope is SAP Litmos LMS), but even if not, technical difficulties will not be even the slightest concern. Plus, if you do happen to want guidance on how best to leverage your account, the support and expertise of the SAP Litmos Heroes team is available to you at any time.

THE BEST RUN **SAP**

A deeper look into our course library

Learning modules - SCORM files at the ready

Video has been proven to work better at connecting and engaging learners and improve memory retention. All SAP Litmos Heroes courses are built using video to deliver knowledge and include questioning, activities, and assessments too. Delivered as a SCORM package, you can use them in any LMS.
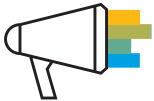

Animated explainer videos

Take advantage of the ability to use the explainer videos in the SCORM files to support your classroom training environments, or on your intranet to get people excited about your training programs.

Workbooks

Training is about behavioral change, so SAP Litmos Heroes includes workbooks that work well as reference materials, but also provide practical activities and offline challenges to encourage learners to put their new skills into practice to form new habits.
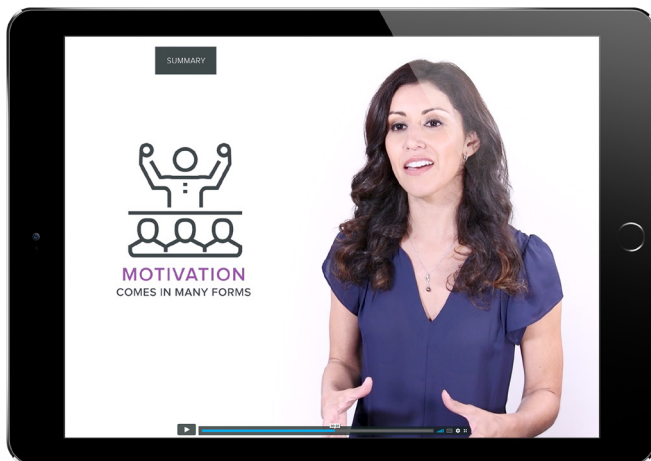

Infographics

SAP Litmos Heroes provides infographics as additional learning resources. You'll find that presenting course information in a different medium can assist memory retention and learner engagement.

Promotional materials

SAP Litmos Heroes is more than just a technology solution. We're also here to help you increase adoption of your programs and get learners excited. Your subscription includes trailer videos, course descriptions, and even thumbnail images for your LMS.

Key Benefits

Immediate access
to more than 2,500 off-the-shelf courses and videos, all broken down into bite-sized learning modules.

Fresh, relevant content
covering areas such as leadership and management, compliance, health and safety, sales expertise, soft skills, and much more.

Training content
that is entirely LMS agnostic. You simply take the SCORM files and use them where you like.

New courses
added to your library regularly, completely free of charge. The longer you're a subscriber, the more value you gain over time.

Simple, annual pricing
that's aligned with your team size and learner needs. Ongoing technical and account management support throughout the duration of your subscription.

Blended resources
that include infographics, workbooks, animated training videos, and presenter packs to help you increase retention and complement classroom training.

"What really surprised me about SAP Litmos Heroes was the sheer **volume of resources they provided.** We had everything we needed, from engaging content that could be quickly and easily loaded onto our LMS to short videos, course descriptions and thumbnails that could be used to market the content."
