## TripLog Mileage

### Mileage expense reimbursement made easy

TripLog Mileage automates the mileage and expense reimbursement process through mobile app/cloud mileage tracking and receipt capture. TripLog's cloud-based web portal makes reviewing and approving mileage reimbursement logs a breeze and gives you a wealth of data for business and employee insight. With automatic mileage tracking, users can easily record, classify and submit mileage logs for approval.

### Help cut down on mileage reimbursement costs.

Manually logging and processing mileage reports can eat up otherwise productive employee hours, not to mention the cost of over-reimbursement via improper mileage logs, and dedicated admin time spent processing manual mileage logs. TripLog can save your company thousands in reimbursement costs by automating mileage expense reimbursement.

### Improve employee accountability.

Concerned about employees over-reporting mileage? With a simple setup, you can choose to take Google Maps' point-to-point distance, or only raise a flag if over-reported. TripLog helps makes the employees accountable and reveals driving routes and tracks time to help measure job performance.

### Easily review mileage logs and expense reports.

With easy, customizable reports at your fingertips, TripLog enables you to easily review mileage expenses and run reports from the web dashboard and submit to payroll. When you integrate with ADP Workforce Now® or RUN Powered by ADP®, the reimbursement process is even easier.

### Find your best-fit reimbursement solution.

Simple cents-per-mile reimbursement is just one of the mileage programs we offer at TripLog. We specialize in all IRS-compliant mileage programs including car allowance, smart mileage rate, fuel cards, and fixed and variable rates. Contact us for a complimentary money-saving analysis. We would love to develop a tailored solution to fit your organization.

### The Value of ADP Marketplace

Get everything you need to manage your people better, from hire to retire. Say goodbye to siloed systems, and hello to powerful HR apps all in one place — connected to your ADP solution.

- Easy and secure
- Seamless integration
- Single sign-on
