

Are you at risk of losing your best employees?

The demands of remote working, repeated lockdowns, social isolation, and rising health anxiety have taken their toll - and the effects are being felt in the workplace.

✓ Resignations are at an all-time high

✓ Top performers are most likely to leave

✓ 40% of people who quit in 2021 cite burnout as the driver

✓ Replacement cost for one employee is 1.5 - 2x their annual salary

What does burnout look like?

Withdrawal

Rocky relationships

Dissatisfaction

Low self-esteem

Lack of engagement

Fatigue

Prodoscore's Employee Productivity Monitoring solution creates visibility into daily engagement highlighting heavy workloads, signs of stress and anxiety, and red flags, so employers can identify burnout and act before it's too late.

Data suggests that productivity is the best indicator of engagement and morale.

High Productivity

Performance throughout the day (Los Angeles)

Low Productivity

Performance throughout the day (Los Angeles)

The impact of visibility = Keeping good employees on board
