**Prodoscore™**
Productivity Intelligence

A visibility solution that measures your most valuable asset: your people

One simple score and an easy to use dashboard to support flexibility and ensure accountability

BUSINESS APPLICATIONS + **ARTIFICIAL INTELLIGENCE** + **NATURAL LANGUAGE PROCESSING** + **MACHINE LEARNING** = **ONE SIMPLE SCORE**

Using ML and AI, we measure thousands of daily activity points across your core business applications to generate actionable insights, digestible in seconds, so leaders can make well-informed decisions, rooted in data.

Target Areas

- Flexible Work Environment
- Remote Work Cost Reduction
- Labor Expense Controls
- Improved Profitability
- Accelerated Employee Contributions
- Streamlined Employee Experience
- Risk Mitigation with Employees

- Cloud Tool ROI
- Employee Burnout
- Data Security Compliance
- Employee Evaluations
- Terminations
- Employee Training Programs
- Fraudulent Work Hours

Who Can Benefit

EXECUTIVE MANAGEMENT: With a focus on all aspects of execution like expense management, market position, market share, go-to-market, company reputation, and profitability.

OPERATIONS: Striving for excellence with execution and process improvement, looking for reputable solutions with proven success.
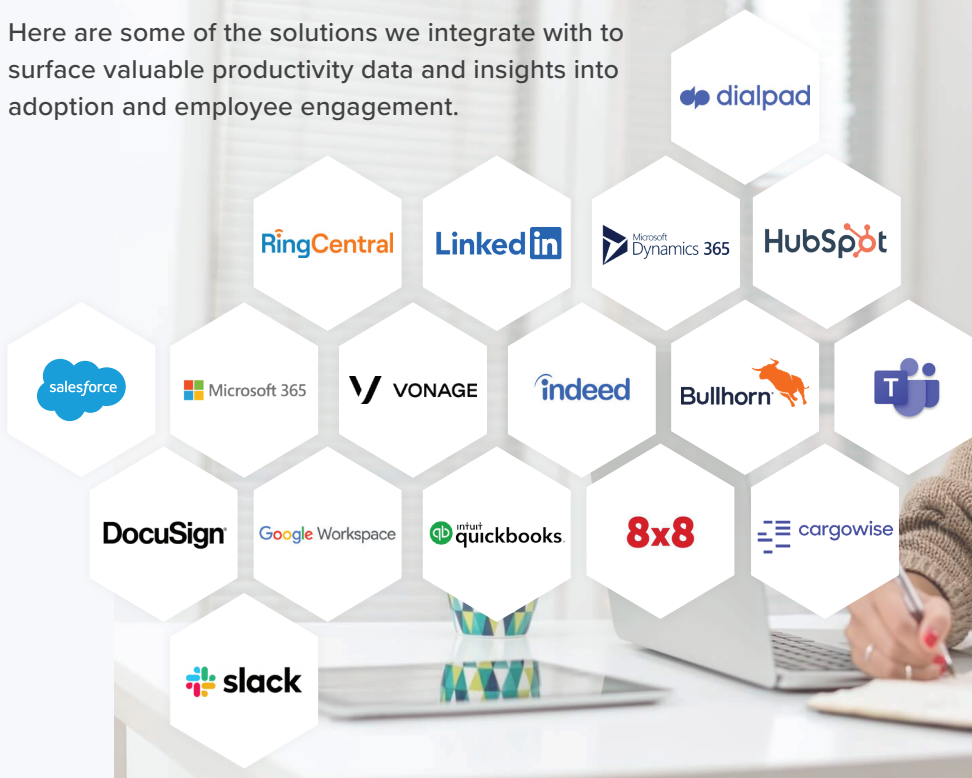

FINANCE: Managing (and reducing) costs, understanding the short and long-term effects of decisions on performance and profitability.

INFORMATION AND TECHNOLOGY: Concerned with technical excellence, integration with other technologies, infrastructure alignment, and information security.

HUMAN RESOURCES: Ensuring fair and consistent labor practices, hiring, terminations, and performance evaluations.

increase in productivity within 90 days	increase in UCaaS adoption within 60 days	savings in office space	increase in sales growth

Real results from various Prodoscore customers

Why Prodoscore?

Because a lack of visibility can lead to bad outcomes for your business

"It's been great to see what our more effective team members are doing and where they spend their time, so we can replicate those behaviors in those that need improvement. We can see easily when they have gap time and the times of day they are the most productive.

Erin Gammage, Sales, BoldLeads

"Adding our internal measures of effectiveness (metrics like response time) and interpersonal relationships to Prodoscore's measure of efficiency, shows me the whole story. It creates a clear view of what an employee is doing so we can help them to improve.

Bryce Hayes, SVP Operations, Telarus

PRODOSCORE DIFFERENTIATORS
