# Prodoscore™

A Suite of Services to Fit Every Business Model

Prodoscore provides visibility into employee productivity in the form of a simple score and easy to use dashboard that leadership can digest in seconds. Our scoring tool generates insights that allow leaders to make informed decisions. AI, Machine Learning, and personalized consulting – everything you need to better manage productivity.

Overview of Services

The Software

Your very own dashboard. Simple and functional – all the data from your integrated cloud-based business applications presented in one place.

Available Integrations ›

Training

Hit the ground running. No one enjoys having to figure out a new piece of software on their own. We'll make sure your team is fully versed in using the Prodoscore application so you can start enjoying the benefits of visibility immediately. The best part is it's really easy to use!

Support

Keep your system in check. Software hiccups can happen. When they do, be confident our team will be on standby to help. Call us from 9am – 5pm EST Monday thru Friday or shoot us an email at support@prodoscore.com.

Ask about our Knowledge Base where customers can access a library of How To videos!

Consulting

We know that no two companies are the same, so our consultants are here to ensure your Prodoscore is customized for you. We want to make certain that you're tracking everything you need to be in order for your team to be most productive.
