Kazoo

An all-in-one employee experience platform

The Kazoo Employee Experience Platform brings recognition, performance management and surveys into a single solution, all with your company's values, culture and core competencies at its foundation.

Build the foundation of a high-performing team with goals and OKRs.

Kazoo makes it easy to set, see and update goals. Every employee can see the meaningful impact of their work. Kazoo helps you drive alignment and productivity, and enables clear measures of success so you always know what's on track and what needs extra attention.

Celebrate your people with recognition and rewards in a single platform.

Recognition plays a critical role in driving employee engagement. High-impact and low cost, recognition programs improve the employee experience and motivate your employees, no matter where they are. Kazoo helps employees find meaning in their work and ties it to your culture and the larger goals of your organization.

Turn managers into coaches and help employees grow with conversations.

Kazoo offers two complementary approaches to conversations, Check-Ins and Sync-Ups, to help employees and managers connect more frequently. Meaningful conversations create alignment and connection, drive engagement, and help managers understand employees' feelings and needs.

Use feedback to improve communication, collaboration and innovation.

For companies that encourage learning and growth, feedback is golden. Regular, well-considered feedback supports open communication, collaboration and innovation across all levels of your company. We remove the friction of facilitating timely feedback to make it a part of every day.

Encourage positive employee behaviors to help drive business success.

Incentives are a powerful way for employees to earn points for activities that are a priority for your company. With Kazoo, you can create custom incentives based on your objectives, programs, core values, or any behaviors that help your employees and your business succeed.
