Assembly

Employee recognition and rewards

Assembly is a recognition and rewards platform that helps promote great culture at scale.

Introduce employee recognition your employees will love.

Create a culture where wins, both big and small, are celebrated together as a team!

Help boost morale and engagement.

Assembly's recognition and rewards platform helps boost morale and engagement. The truth is simple: Employees want to be recognized for their hard work. How much harder would your employees work if they know their managers and coworkers appreciated their efforts?

Recognize where work happens.

Assembly integrates into Microsoft Teams and Slack, so recognition can blend seamlessly into your employees' workflow!

Let us do the hard work.

It has historically been on HR managers to make sure employees get recognized. With Assembly, we empower all employees to recognize both peer-to-peer and manager down, resulting in a 90%+ participation rate. Employees use Assembly because they love it!
