

PayAsia

Global Payroll Provider

PARTNERSHIP OVERVIEW

UKG delivers best-in-class HR and workforce management in an unmatched suite of solutions and services, backed by people who care about you and your people.

UKG connects your people data with PayAsia through a standard API integration to extend the value of your investment, solve complex needs, reduce costs, and enable innovative solutions.

UKG has partnered with PayAsia to deliver payroll and treasury services across 75 countries in Asia Pacific, (APAC) the Middle East and Africa. This partnership includes a pre-built, bi-directional integration, providing you with an effective path to address regulatory compliance, accelerate your time-to-live, and eliminate duplicate data entry.

INTEGRATION OVERVIEW

SEAMLESS INTEGRATION

UKG's partnership with PayAsia provides a pre-built, bidirectional payroll integration. Global employees' demographic, banking account, and other pay-related information is sent from UKG Pro to PayAsia, where payroll processing takes place. Once payroll is complete, PayAsia sends the gross-to-net and pay-summary details back into UKG Pro. This enables employees to access their pay-history data within UKG Pro, while providing you with the ability to gain comprehensive insights through the combined analysis of global human capital management (HCM) and workforce costs.

COUNTRY-SPECIFIC LOCALIZATION

UKG Pro's country-specific pages include banking and pay related data fields necessary to process payroll by PayAsia. With UKG Pro's platform configuration, you can easily enhance these pages to support your company's unique local needs. Today, UKG Pro has over 100 configured countries—such as Australia, Brazil, China, France, Germany, Japan, Mexico, South Africa, and Thailand—and continually adds new countries to support your changing global needs.

About PayAsia

PayAsia is a leading provider in the Asia-Pacific, Middle East & Africa regions for Fully Managed Payroll and Cloud HR services and solutions, meeting the demands of clients for process and technology-driven regional solutions and consolidation.

PayAsia offers:

- Managed services in all countries
