

Data Centers & Colocation

Iron Mountain Data Centers operates a global colocation platform that enables you to build tailored, sustainable, carrier and cloud-neutral data solutions. We lead the data center industry in highly regulated compliance, environmental sustainability, physical security and business continuity. We collaborate with our customers to build and support their long-term digital transformations across our fast-growing global footprint.

Proven track record

As a proud part of Iron Mountain Inc., a world leader in the secure management of data and assets trusted by 95% of the Fortune 1000, we are uniquely positioned to protect, connect and activate high-value customer data.

Risk mitigation

We are trusted by the world's most heavily regulated companies, offering the highest available standards in physical and data security and redundant infrastructure design and management.

Exceptional efficiency

Our facilities house diverse ecosystems with a huge range of connectivity and service provider options, offering design PUE as low as 1.2 and 100% renewable energy worldwide.

20+ locations, 4+ Million Square Feet, 7 countries, 3 continents

Scalable

Our data centers include a range of hyperscale-ready facilities and our campus and power agreements always offer room to grow.

Sustainable

Award-winning new-builds designed to minimize environmental impact combine with a 100% renewable energy for long-term sustainability.

Reliable

Reduce business risks with comprehensive compliance support tailored to your industry, and redundant power and HVAC design.

Responsive

From a simple Cross Connect to full Installs and Migrations, our Service Level Agreements guarantee you prompt high quality service.

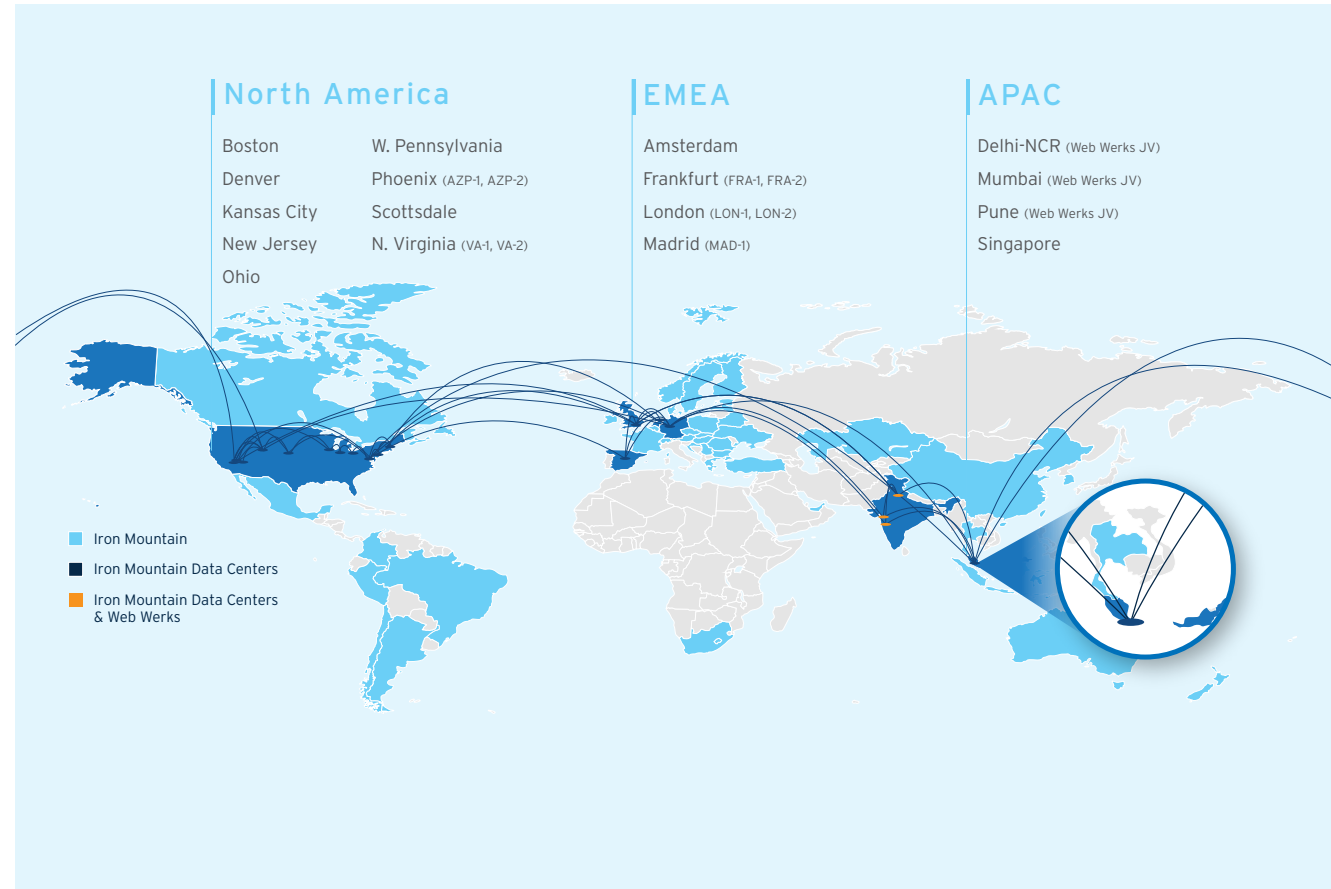

Flexible

Whatever your requirements, from a few racks to a turn-key global architecture or a full facility build, we are happy and able to deliver.

Secure

As well as multiple layers of physical security at all facilities we offer ultra-secure underground data centers which are ideal for backup and DR.
