Quinyx is the crystal clear choice for Swarovski

Founded in 1895, Swarovski has seen the evolution of the retail industry firsthand. As they've expanded their global footprint over the years, Swarovski had to modernize their workforce management processes to keep up with a global workforce and ever-changing customer expectations.
Controlling costs, improving employee retention and automating core processes such as scheduling and forecasting are just some of the many areas Quinyx is helping Swarovski shine.

"By implementing Quinyx, we decreased time spent on payroll from 2 days down to 5 minutes. "

"We used to get 50 calls every month from employees who got the wrong salary, with Quinyx we get zero!"

Dries Coppelmans, Payroll Specialist - Swarovski

Quinyx

At a glance
