

UKG Dimensions, Ready and ePass Solution

Real-time data exchange in our Technology Marketplace ecosystem taking UKG platforms to the next level.

Our promise to our customers is "We Partner for Life." We care deeply about our customer's long-term success, building true partnerships that evolve along with their needs and priorities. It's about more than great technology. We build life-long partnerships with our customers so they can create meaningful experiences for their own people. UKG's purpose is people. Our passion for people and desire to innovate has pushed us to deliver an unmatched suite of solutions, services, and partnerships, backed by people who care about our customers, and their people.

ePass integrates directly into Workforce Dimensions and Workforce Ready. To provide a CDC compliant pre-shift questionnaire that will issue notifications, to staff members line-managers, should the answers given indicate reason for possible concern. It can work with a cell phone, tablet or from a PC.

Overall, the ePass integration into UKG Dimensions and Ready, enhances staff confidence that they are entering a safe workplace where their employers are concerned about their well-being. Where the chances of contracting an infectious disease are mitigated because colleagues exhibiting symptoms have self identified early. Or, where people have been infected ePass allows the rapid identification of all those who have come in contact with them over the infectious period.

Key benefits

- Meets all CDC, HIPPA and GDPR regulations.
- Integrated with UKG Workforce Dimensions and Workforce Ready to provide enhanced granularity for subject tracing in the event of possible contacted with infected individuals.
- Allows for Covid vaccination attestation for:
 - Vaccination date and time.
 - Vaccine version.
 - Location where the vaccine was administered
- All tied in to the employee name and staff number (in the application)

The screenshot shows the ePass application interface. At the top, there are navigation tabs: Statistic, Form Fields, Sites, Users, Pass Status, Contact Tracing (selected), Jobs, Notification Templates, Device, Activity Logs, Vaccination Tracking, and Application Settings. Below the tabs, there are 'Actions' and 'Filters' buttons. A search bar labeled 'Contacts With' contains 'Jon Snow (admin@site.fls)'. To the right, there are input fields for 'Site', 'From', and 'To'. Below these is a table with the following columns: Employee Id, First Name, Last Name, Email, EPass Date, Timesheet Start, Timesheet End, Overlap (hrs), Site, and Event. The table contains three rows of data:

Employee Id	First Name	Last Name	Email	EPass Date	Timesheet Start	Timesheet End	Overlap (hrs)	Site	Event
123456	Mike	Smith	user@site.fls	01/17/2021 03:05 AM	01/17/2021 03:05 AM	01/17/2021 07:15 AM	5	Corporate Office	
				01/16/2021 03:01 AM	01/16/2021 03:01 AM	01/16/2021 12:00 PM	9	Corporate Office	
121212	Denis	Kiselev	denis.kiselev@firstlinesoftware.com	01/17/2021 08:15 AM	01/17/2021 08:15 AM	01/17/2021 12:01 PM	4	California Office	

Integrated CDC compliant pre-screening questionnaire, with built-in notifications to identify potentially at-risk individuals.

eClear has an integrated, CDC compliant, pre-shift screening questionnaire. This can quickly identify individuals whose risk profile indicates that they should not come to work, and an alert can be issued, to their line-managers, to this effect. Allowing senior personnel to make the necessary adjustments to staffing patterns.

Reduces manpower costs and cumbersome manual screening processes.

Eliminates staff intensive telephone or pen and paper solutions to screening that, often, expose staff to the risk of contamination and take time and effort to get to work..

Web-based URL can be accessed from smartphones, tablets and Mac/PC computers.

URL based questionnaire can be accessed from anywhere on any device.

Immediate Feedback on whether staff as safe to come to work, or whether they should quarantine.

Results instantly transmitted to line-Managers so mitigation strategies can be enacted, and self-isolation protocols begun.

Multi-Language Support

The questionnaire can be provided in multiple different languages for different locations or personnel.

Meets all CDC, HIPPA and GDPR regulations.

Data stored securely in a private, or on-premise cloud and only released in accordance with your organizational requirements.

Customisable interface, Operator changes can be easily incorporated.

The form of the presented questionnaire can be easily altered as it is designed to adapt to a wide range of organizational structures, workflows, and use cases. Questions can be added and removed as necessary.

Built in Vaccine Attestation and Subject Tracking.

If an staff member reports that they have symptoms then all staff who have been in potential contact with them, while they were symptom free, but still infectious, can be easily located within ePass.

While attestation for employees who have been vaccinated can be quickly, easily and securely stored

Have you been vaccinated against COVID-19?

Yes

Vaccination date

02/16/2021

Vaccine type

Moderna

Vaccination location
