Backup as a Service (BaaS)

Protect Your Data and Streamline Your Recovery Plan with Backup as a Service

Backup as a Service (BaaS) secures your critical files, folders, and other data essential to your business, setting your business up for success.

Your Server Environment

Benefits of BaaS:

- Ensures recovery of files and folders from the secure Sky Data Vault cloud at any time through our online portal, with no extra support charges, and no egress fees
- Supports single servers up to entire data center instances
- Allows your organization to refocus on their core mission while having full confidence the system is working and data is available when it is needed
- Ensures around-the-clock support 24/7/365 from U.S.-based support teams
- Offers flat monthly fee with no hidden charges
- Provides all-inclusive service monitoring, software maintenance and support

Organizations That Need BaaS:

- Have no backup solutions in place
- Are currently using tape or disk backup solutions
- Are not 100% confident their backup system will work in a crisis
- Are budget conscious, but need data protection or have compliance requirements
- Can't afford downtime or data losses
- Want predictable monthly costs
 - even if an outage occurs

Discover What's Possible with Sky Data Vault

Sky Data Vault collaborates alongside customers within all verticals and industries to manage and support cloud-based solutions designed to empower growth, improve efficiency and inspire success.
