Everything connects

Introduction

Welcome to next-generation HR data integration using custom-tailored connectors from Flexspring.

- ✓ Gain **seamless integration** between Quinyx® and ADP®. Integrations work with ADP Workforce Now®, ADP Workforce Now® Next Generation, or ADP Vantage HCM®.
- ✓ Improve your HR team's productivity by **avoiding double-data entry** between Quinyx and ADP.
- ✓ **No internal IT resources** are needed to create a data integration. The experts at Flexspring handle all custom data mapping.
- ✓ Go beyond scheduled file transfer to gain **near real-time data sharing** via API-to-API connection.
- ✓ Gain **fast Integration** using custom-tailored connectors.
- ✓ **Increase security** by reducing the creation of unnecessary user accounts, duplicate employee profiles, and people involved with manual data entry.

Flexspring focuses solely on HR data integration. It's all we do.

Flexspring integrations are true point-to-point integrations. They do not require manual interventions, do not store data, and meet enterprise-level security standards.

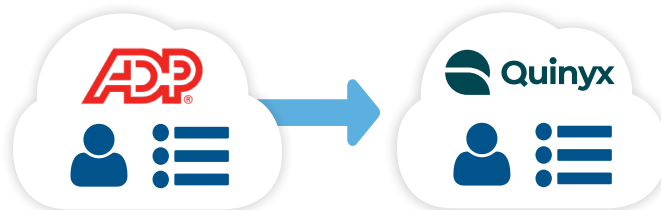

This **Quinyx with ADP Workforce Now Integration Guide** walks you step by step through what you need to know to easily integrate Quinyx with ADP.

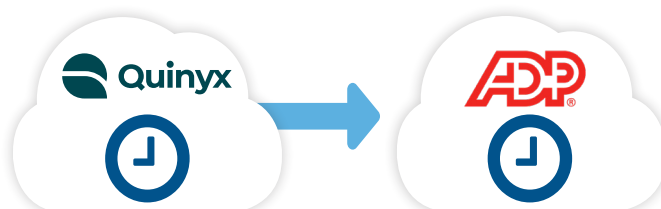

Step One: Choose your use case (or use cases)

Here are the three most popular uses case for integrating Quinyx with ADP Workforce Now, ADP Workforce Now Next Generation, or ADP Vantage HCM. With data integration from Flexspring, you only pay for the use case or use cases that you need.

- 1 Employee Data from ADP to Quinyx.** This use case brings employee data, including new hires, employee updates, and terminations from ADP into Quinyx. This way, Quinyx can manage workforce resource needs for scheduling, vacations, time and attendance, and employee engagement for all employees.

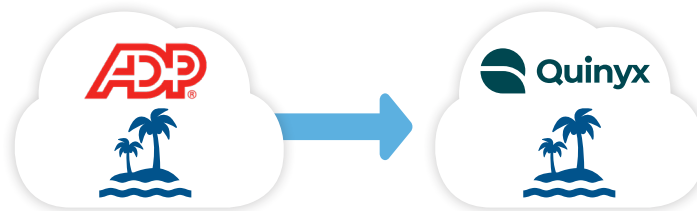

- 2 Timesheets from Quinyx to ADP.** This use case sends timesheet information for hourly workers and salaried employees from Quinyx to ADP in order to process weekly or bi-weekly payroll. This integration also manages vacation and leave time.

- 3 Vacation Accruals from ADP to Quinyx.** This use case brings each employee's accrued vacation hours back from ADP into Quinyx. This way, employees can see how much vacation time they have available directly in Quinyx.

Without integration, Quinyx deducts vacation time but is not aware of ADP adjustments and increases to an employee's vacation hours. This integration brings both calculations together to keep Quinyx up to date so that each employee can view their actual available vacation time directly in Quinyx.

Note: Vacations Accruals (use case 3) requires Timesheets (use case 2).

Step Two: Understanding Custom Integration

About Custom Integration

Features custom data mapping by Flexspring integration experts

Custom integration using a Quinyx connector to ADP from Flexspring is fast and relatively easy. The experts at Flexspring do all the data mapping to create a tailor-made connector for your business. No internal IT resources are needed to create or maintain your integration.

With custom connectors, the experts at Flexspring meet the unique integration needs of your business as well as match the unique data field names and data syntax requirements of your ADP database.

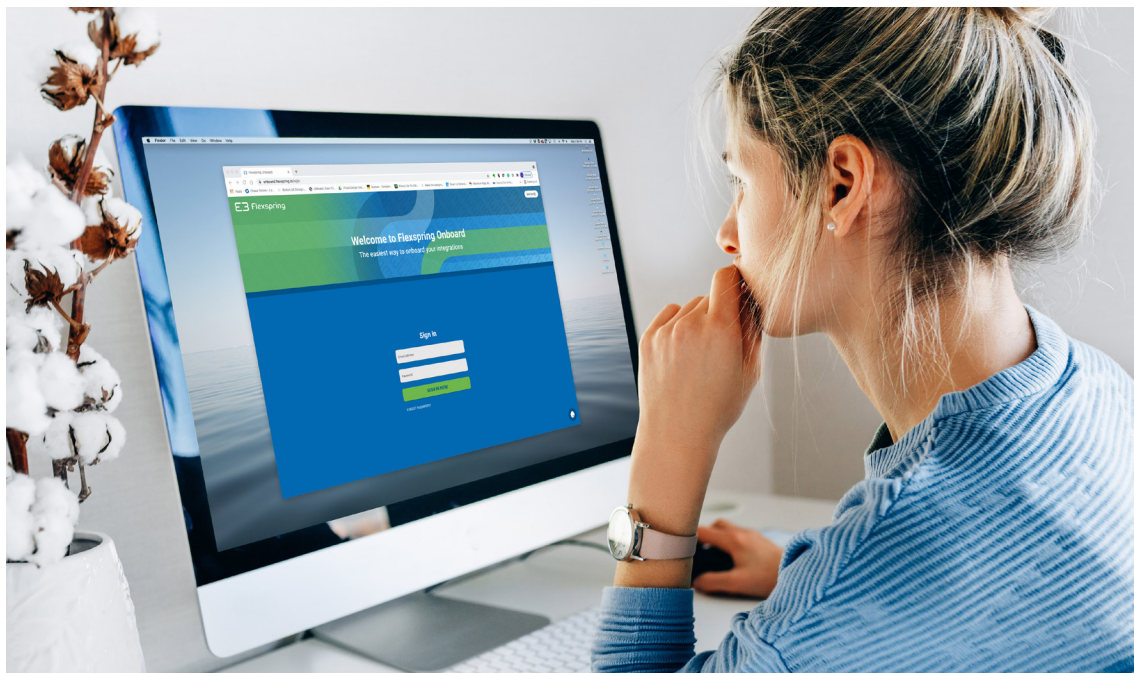

"HR departments should embrace the time-savings of data integration. Solving the double-data entry problem saves our HR resources hours monthly, freeing our teams to work on things of greater strategic benefit to our company. The cost-benefit analysis made the Flexspring connector cheaper to buy than build. And the implementation process was seamless and really easy."

- HRIS MANAGER, SOFTWARE COMPANY

Powered by Flexspring

Flexspring's integrations have a distinct advantage: the Flexspring iPaaS. Flexspring is an integration platform as a service (iPaaS) built from the ground up to meet the complex requirements of HR data integration. Simply, what SaaS does for software, Flexspring does for integration.

Flexspring is built for flexibility and speed. Leveraging integration templates, the experts at Flexspring can easily customize your integration to meet your unique business needs.

Flexspring integrations are also future-proof. The Flexspring support team can easily make changes in the future should new business rules, new payment codes, or new custom fields need to be added in Quinyx or ADP.

Flexspring integrations are true point-to-point integrations. They do not require manual interventions, do not store data (beyond temporary transaction logs), and meet enterprise-level security standards—including GDPR-compliance and SOC 2 certification by the AICPA (American Institute of Certified Public Accountants).

Step Three: Pricing

Custom Connector	Use Case	Use Case Name	Source System	Target System	One-time Setup	Annual Subscription
	1	Employee Data from ADP to Quinyx	ADP	Quinyx	\$6,750	\$6,750
	2	Timesheets from Quinyx to ADP	Quinyx	ADP	\$6,750	\$6,750
	3	Vacation Accruals from ADP to Quinyx*	ADP	Quinyx	\$6,750	\$6,750
	Bundle 1, 2, 3	Employee Data from ADP to Quinyx; Timesheets from Quinyx to ADP; Vacation Accruals from ADP to Quinyx	ADP & Quinyx	Quinyx & ADP	\$15,000	\$15,000

***Note:** Vacations Accruals (use case 3) requires Timesheets (use case 2).

Integrations work with ADP Workforce Now, ADP Workforce Now Next Generation, or ADP Vantage HCM.

Fast Integration

A custom integration of the Flexspring Connector for Quinyx with ADP can be fully deployed in 10-12 weeks.

The Quinyx to ADP connector by Modulus Data is the only **Quinyx connector on the ADP Marketplace.**
