

Any Fleet. Any Vehicle Type. Universal tracking at your fingertips.

Whether you're responsible for 20 or 2,000 drivers, light or heavy-duty vehicles, or anything in between —FleetLocate by Spireon offers a fleet telematics solution tailored to fit your needs. Get the leading IoT solution for location information, analytics, and actionable insights on your assets and drivers in realtime.

Introducing the new FL360 by Spireon. The FL360 is a modular GPS tracking device offered as the latest release from the FleetLocate solution portfolio. This robust solution supports all vehicle types, plug-and-play or covert installation, and enables advanced features and diagnostics. Access key insights via our mobile app or web based portal.

For an even more comprehensive view, add on our FL Dashcam solution. This future-proof dual camera powered by Surfsight, from Lytx, leverages AI technology to detect unsafe driving and trigger in-cab driver alerts, ultimately coaching drivers to avoid accidents and improve overall safety.

FL360 BENEFITS:

Fleet Management

Increase dispatch efficiencies, reduce vehicle misuse, improve customer service, and drive revenue. Accommodate new business opportunities by adding stops on the fly to the closest driver.

Trailer and Asset Management

Reduce detention time, automate yard checks and maintenance, improve driver satisfaction, increase trailer and asset utilization, and get your assets back to work faster.

Monitor Driver Behavior

Identify and reduce risky and costly driver behaviors, such as speeding, harsh braking, and excessive idling to lower insurance costs and fuel consumption.

Proactively Maintain Your Fleet

Get ahead of vehicle service with advanced engine diagnostics. Avoid downtime and maintain a healthy fleet through alerts triggered by engine fault codes.

Stay Compliant

Ensure compliance with federal regulations such as FMCSA 395.15, the ELD mandate, and the Food Safety Modernization Act.

Features

CORE FEATURES

The screenshot displays the FleetLocate web application interface. On the left is a navigation menu with options: Map, Dashboard, Fleet, Maintenance (with a blue notification bubble containing the number 5), Reports, Alerts, Driver Behavior, Admin, and Compliance. The main content area is divided into several sections:

- Reports:** A sidebar menu for report generation.
- Dashboard:** A central area with charts and data tables, including a 'Speed Limit Alert' map.
- Maintenance:** A 'Create Service Plan' form with fields for Mileage, Date, and various service items.
- Alerts:** A 'DTC Alert' icon representing a Diagnostic Trouble Code.
- Scorecard:** A 'Driver Scorecard - Settings' page with sliders for 'Speed Threshold (MPH)' (Over 70 - Under 80, 80 through 89, 90 and Above) and 'Importance'.
- Compliance:** A 'Summary' table showing 17 violations, 0 out-of-service events, 1 driver status, 0 out-of-order events, and 16 safety events. It also lists 'Compliance Notifications' and 'Drivers Status'.
- Safety Tab:** An 'Edit Asset' page with a 'Safety Profile' section containing checkboxes for 'Over/Off', 'Warning Buzzer', 'High Speed Brakes', 'Hill Descent Control', 'Hill Hold', and 'Hill Assist'.

ADVANCED FEATURES

The advanced features are presented in three distinct panels:

- Advanced Vehicle Data:** Features icons for True Odometer, True Engine Hours, Engine DTC, Engine Oil Life, Fuel Level, and Seatbelt. A note below states: 'Availability dependent on vehicle'.
- Advanced Tracking:** Shows a map of the Lake Mathews Estelle Mountain Reserve area with a blue path of location points. A note below states: '30 Second Reporting'.
- Driver Mobile App:** Displays a smartphone screen showing a 'Driver Scorecard' with a score of 88.8 and 'Individual Metrics' for Safety Events (12), Speed Events (12), Efficiency Events (12), and All Events (243). A note below states: 'eASY Scorecard' and lists features: 'Gamification' and 'Mobile Driver ID'.
