V2 CLOUD WorkSpaces

CLOUD FOR *SMBs*

THE EASIEST WAY TO THE CLOUD!

V2 CLOUD WORKSPACES

V2 Cloud WorkSpaces is a fully managed Desktop-as-a-Service offering specifically built for Small and Medium-Sized Businesses. With V2 Cloud WorkSpaces, SMBs can conveniently provide a **multi-user windows operating system with Microsoft Office and all business applications** that employees and consultants can access anytime from any computer, phone or tablet anywhere around the globe.

MULTIPLE USERS PER VM

Add up to 250 concurrent users per Cloud WorkSpace with configurable access level and get detailed analytics on their usage.

MULTI-PURPOSE

Run your internal ERP, host your databases, give remote access to consultants or run your complete office in the Cloud.

SHARE FILES & APPLICATIONS

All users can share applications and files in a single WorkSpace.

DAILY BACKUPS

Every day we take a complete backup copy of your WorkSpace. Backups are securely kept offline and are completely ransomware proof.

EASILY ACCESSIBLE

Users have access from anywhere and from any device (PCs, Macs, Chromebooks, Tablets and Smart-phones)

FULLY REDUNDANT

Your WorkSpace is mirrored to another location so we always have a second instance in case a disaster happens in the first location.

INFINITE POWER AND STORAGE

You only pay for what you use and you can upgrade performance and storage of your Cloud WorkSpaces anytime within seconds.

COMPLIANT READY

- ISO/IEC 27001
- SOC 1 Type II and SOC2 Type II
- HIPAA (on request)
- Cloud Security Alliance
- AICPA SOC (aicpa.org/soc)

THE EASIEST WAY TO THE CLOUD!

DATA SECURITY STRATEGY

3- LAYER FIREWALL

- DC in/out scans
- Configurable router/server firewall
- Configurable VM firewall

ANTI-DDOS

PRIVATE CLOUD NETWORKS

ALL COMMUNICATIONS ENCRYPTED

- SSL over Web (HTTPS)
- Site-Site VPNs encrypted
- Encrypted RDP over SSH

2- FACTOR AUTHENTICATION

ANTIVIRUS INCLUDED ON ALL VMs

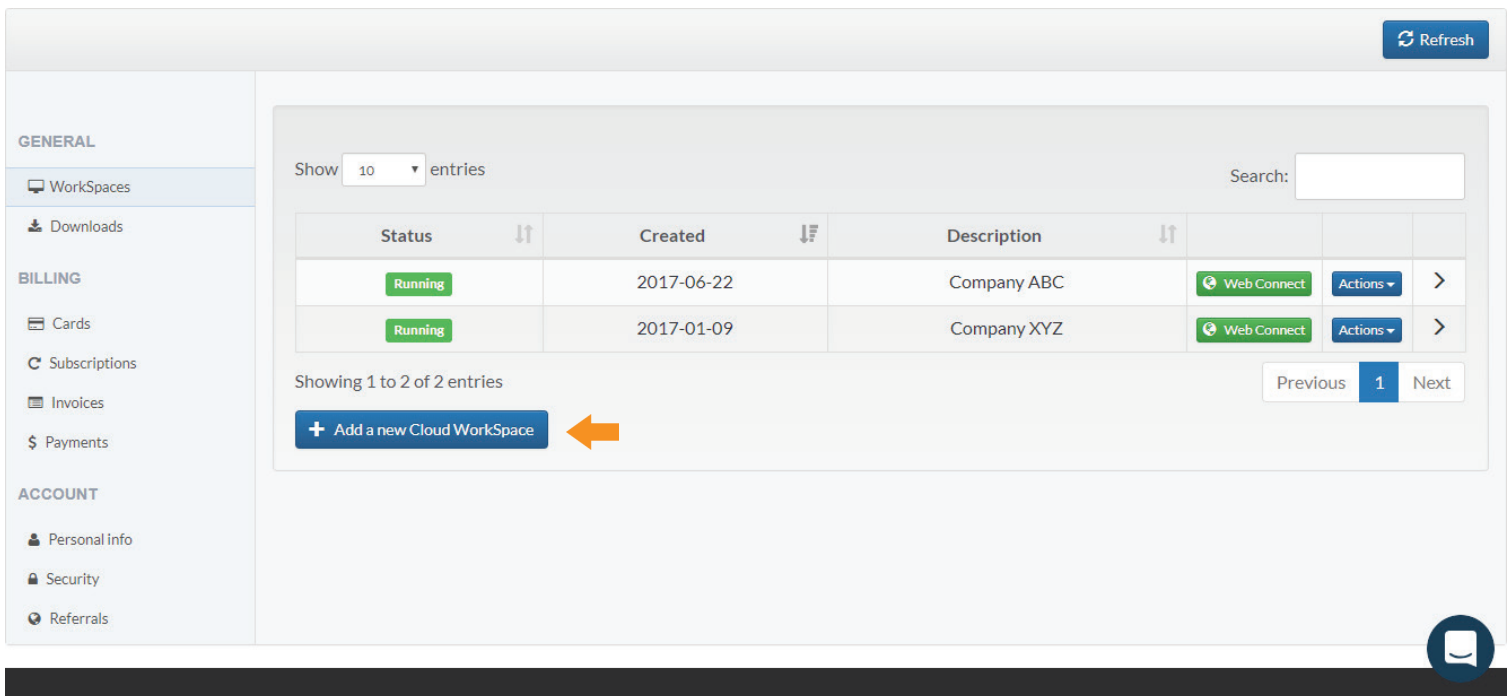

THE EASIEST WAY TO THE CLOUD!

Unlike traditional desktop Infrastructures where you have to procure, deploy and manage a complex IT environment - **V2 Cloud WorkSpaces** take away the IT headache from your business by providing a fully managed service. We offer the lowest pay-as-you-go fee for a complete cloud-based virtual desktop service as a service offering, including 24/7 fanatical technical support.

GETTING STARTED

It is quite easy to get started. Simply login to your V2 Cloud account and click "**Add a New Cloud WorkSpace**" to build your first WorkSpace.

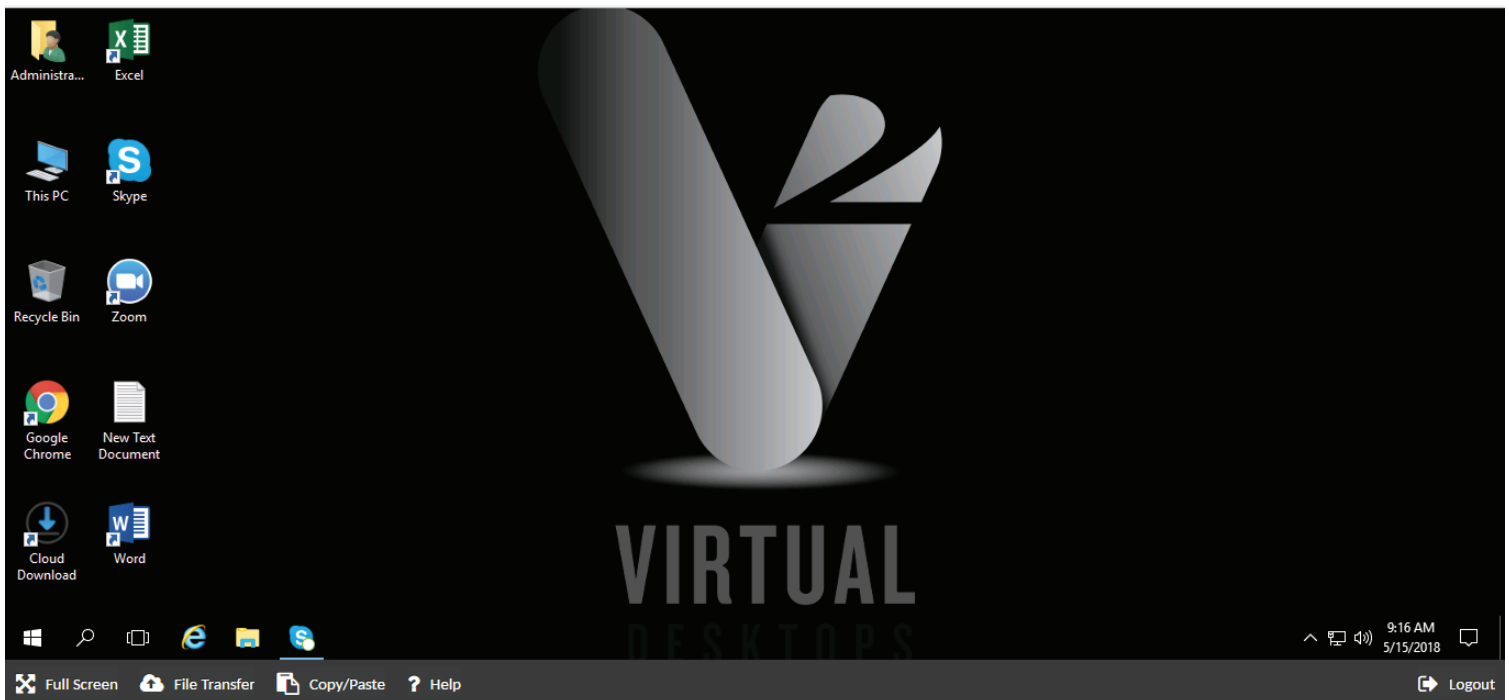

The screenshot displays the V2 Cloud WorkSpaces Admin Dashboard. On the left is a navigation sidebar with sections: GENERAL (WorkSpaces, Downloads), BILLING (Cards, Subscriptions, Invoices, Payments), and ACCOUNT (Personal info, Security, Referrals). The main content area shows a table of WorkSpaces with columns for Status, Created, and Description. Two entries are listed, both with a 'Running' status. Below the table is a pagination control showing 'Showing 1 to 2 of 2 entries' and a 'Previous 1 Next' indicator. A blue button labeled '+ Add a new Cloud WorkSpace' is highlighted with an orange arrow pointing to it. A 'Refresh' button is in the top right corner.

Status	Created	Description			
Running	2017-06-22	Company ABC	Web Connect	Actions	>
Running	2017-01-09	Company XYZ	Web Connect	Actions	>

(V2 Cloud WorkSpaces Admin Dashboard)

THE EASIEST WAY TO THE CLOUD!

Once you are done building the machine every user you add to the WorkSpace will instantly receive an email providing a URL link and instructions on how to login to their private desktop instance using just a **web browser (no plugin required)**.

V2 Cloud WorkSpace rendered via a web browser

They can connect to their **V2 Cloud WorkSpaces** from any **Windows or Mac computer, Chromebook, Smartphones, Tablet, iOS and Android devices**. Business applications and data remain persistent, so users can switch between mobile devices without losing their work.

THE EASIEST WAY TO THE CLOUD!

The screenshot displays the 'Admin Control Dashboard' for a workspace named 'Company ABC'. The dashboard is divided into several sections:

- GENERAL:** Shows the workspace status as 'Running' with an IP address of 'vm6804.cloud.v2cloud.com'. It also lists the region as 'America', OS as 'Windows 2016', and storage as 'Basic SSD'. RDP details include address 'vm6804.cloud.v2cloud.com:52581', username 'Administrator', and a password field.
- BILLING:** Includes links for Cards, Subscriptions, Invoices, and Payments.
- ACCOUNT:** Includes links for Personal info, Security, and Referrals.
- Users:** The active section, showing a list of users. The total number of users is 3/250. The list is filtered to show 10 entries. The table below details the users:

Status	Creation	Description	Email	Username	Last connection	Actions
Offline	2017-06-22		demo@v2cloud.com	Administrator	2018-05-15 08:43:24	Actions
Offline	2017-11-09		demo01@users.v2cloud.com	user7522	2018-05-15 08:57:37	Actions
Offline	2017-11-20		demo02@users.v2cloud.com	user7653	2018-05-10 10:18:44	Actions

At the bottom of the user list, it says 'Showing 1 to 3 of 3 entries' and includes a '+ Add user access' button. A search bar and pagination controls are also visible.

Admin Control Dashboard

Data is never sent or stored on end-users devices because we use our remote display protocol to provide high-quality desktop experience to users while your data remains in V2 Cloud. This protocol compresses, encrypts, and encodes the end users' desktop experience and transmits 'images only' across any standard IP network to users' devices.

V2 Cloud WorkSpaces is compatible with Microsoft Active Directory and supports multi-factor authentication. Using AD connector, you can use your existing directory and corporate credentials without having to replicate them to V2 Cloud. This integration works via a secure site-to-site VPN connection to their on-premises network.

We provide round the clock fanatical technical and customer support services with a record response time of 5 minutes. No additional fee is charged for technical support.

THE EASIEST WAY TO THE CLOUD!

ADDITIONAL FEATURES OF V2 CLOUD WORKSPACES

- Branded login page for end-users
- Full admin control dashboard and API
- Windows 8 or 10 (based on Windows Server)
- SSD storage
- USB webcam and printers redirection
