

Visier

People analytics for everyone

PARTNERSHIP OVERVIEW

UKG delivers best-in-class HR and workforce management in an unmatched suite of solutions and services, backed by people who care about you and your people.

UKG connects your people data with Visier through a standard API integration to extend the value of your investment, solve complex needs, reduce costs, and enable innovative solutions.

Leading HR teams today rely on data to make informed decisions that impact their organizations. However, collecting data from different sources and analyzing it to find the right insights can be challenging.

UKG partners with Visier to offer access to people analytics that help transform your HR data into actionable insights, without complex implementation. Connecting UKG Pro™ with best-in-class analytics and machine learning, Visier makes it easy for HR leaders to leverage their existing people data and turn it into meaningful analytics in just a few clicks.

INTEGRATION OVERVIEW

Seamless Integration

UKG has created a seamless integration between UKG Pro and Visier via an API extraction. Once your UKG Pro data is connected, Visier instantly transforms your historical data and current workforce data into predefined content that includes built-in graphs, visualizations, metrics, questions, and answers— instantaneously.

- Save time on HR reporting and data-entry processes
- Gain actionable insights, using the HR data you're already generating

Key Differentiators

Visier for UKG Pro provides user-friendly guidebooks built from metrics and analyses. Through this partnership, you can bring together your HRIS data, analyze it, and then use analytics to offer a better understanding of your business.

With Visier, you can:

- Review people trends over time, from growth and retention to diversity and engagement
- Predict future HR events that affect your organization
- Connect data-driven HR decisions to business results

Key Benefits

Leverage a solution that connects your HR data with best-in class people analytics, in a meaningful, conversational way.

- Trusted Security
