# CLEARIFY DEPENDENT ELIGIBILITY VERIFICATION

KEY FEATURES

Avoid overspending; simply provide Cleartrack HR with your health plan parameters and a census file of all health plan participants, and we will do the rest.

- Employees choose a document submission method that is most convenient: mail, fax, web or Clearify mobile app.
- Customized employee communication sent on your behalf via mail, e-mail and phone. English and Spanish version available.

- US-based call center for employee inquiries and technical support
- Representatives trained on your specific plan parameters
- Clearify online employee portal and mobile app viewable in English or Spanish

- Employer dashboard with case progress, ROI calculation, and analytics
- Dedicated account manager for individualized support

OUR SOLUTION

On average, employers spend $3,000 per dependent annually in healthcare costs. Case studies show **an estimated 4-8% of dependents are ineligible.**

By removing ineligible dependents from your healthcare plan, you could save thousands per year while offering your employees the same benefits packages. Or, use the savings to enhance your existing benefits package.

The dependent eligibility verification audit will identify ineligible dependents based on your plan rules and the submitted documentation from your employees.

You could save thousands per year by removing ineligible dependents from your benefits plan.
