# Dependent Verification Case Study

## Government Entity

### 984 Total Employees

The client had a total of 984 employees. Of those employees, 615 had covered dependents.

### \$315,000 Savings Per Year

Total estimated savings after completion of the dependent verification based on the industry standard of \$3,000 per covered ineligible dependent.

### Return on Investment

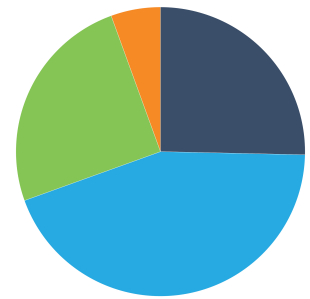

The client invested \$8,022 for the dependent verification. With a yearly savings of \$315,000, the client saw an ROI of over 100 times their initial investment!

### 8% Ineligible Dependents

More than 8% of covered dependents were found to be ineligible for coverage based on the client's benefits plan.

### Submission Methods

- Mail
- Web App
- Fax
- Mobile App
