COMMON CUSTOMER DEVICE MANAGEMENT CHALLENGES

COMPLEXITY

Growing device estates are becoming **more complicated, costly and time-consuming** to manage

ENVIRONMENTAL COMPLIANCE

Sustainability is an integral part of the business model and **addressing environmental issues** requires **partnerships across sectors**

FINANCIAL PRESSURE

Financial pressure means businesses are looking to **reduce Capex spend on devices** and are seeking **consistent global pricing**

HYBRID WORKING

You need the **flexibility to adapt and scale** your device and security management tools

...AND HOW DLM IS RESPONDING TO IT

SIMPLICITY

One single provider and a solution that works across 28 European markets and in the US ensuring optimal efficiency through 1 single contract

A SUSTAINABLE SERVICE

Ensuring your business is more sustainable by **giving your devices a second life, offsetting carbon emissions and a 1 for 1 recycling service**

FLEXIBILITY AND CASHFLOW MANAGEMENT

A tailor-made solution designed to align with your **unique device management needs**, enabling you to stay in control of the costs

CONNECTED WORKFORCE

Facilitating your employees to **work efficiently from anywhere** with devices secured

VODAFONE BUSINESS DLM

SUSTAINABILITY

END-TO-END SUSTAINABLE DEVICE MANAGEMENT AT A GLANCE

FLEXIBILITY

Devices

- Choose your devices (smartphones, rugged devices, Tablets and accessories) **from an extensive catalogue with a range of leading vendors** (Apple/ Samsung/ Nokia/ CAT, Android OEMs)
- **Maintain your existing device estate and migrate to new devices at your pace**
- **Trade in your old devices** and get value by reducing the overall cost of upgrading to newer technology and encouraging the recycling and refurbishment of old devices

Financial options

- **Opt for either CAPEX** if this is still your preferred route, or **OPEX model** (12, 18, 24, 30 or 36-month lease, depending on device model)

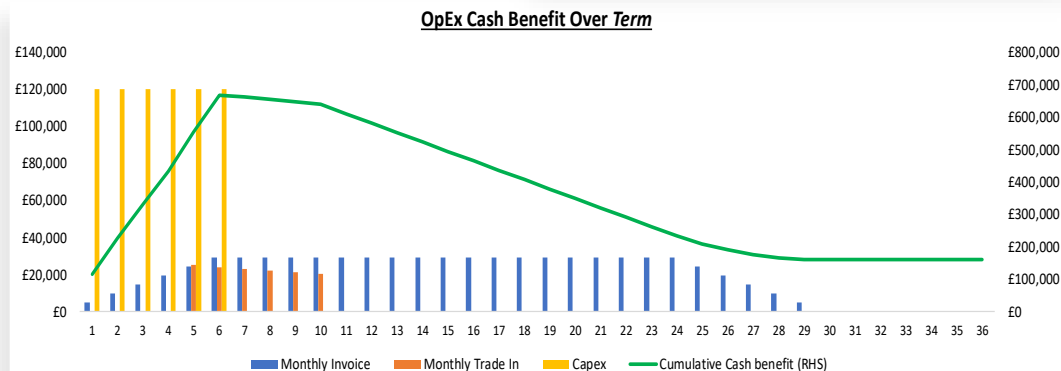

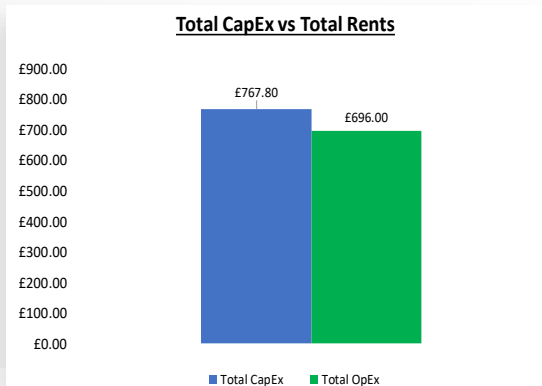

Configuration

- **We will agree the Gold Builds** you wish to order **to suit your needs** – i.e. Apple Business Manager, Screen protector, case, asset tagging.. When your device is deployed, you can be sure it's **running with the exact configuration your business-critical operations demand**
- Define the support you need for your **existing devices** and for the **trade-in programme**

LEASING VS PURCHASE TO IMPROVE CASHFLOW USING TRADE-IN

- Use DLM to support your existing devices
- As you roll out new devices, take advantage of the DLM trade-in service
- Use trade in funds to subsidise new device rentals and improve cash flow

INPUTS

Device	iPhone 14 128GB Black
Term (months)	24
Quantity of Devices	1000
Region:	3-Pin
Rollout (months)	6

CapEx

OEC	£720.94
Cost of Capital(% p.a.)	6.50%

OpEx

Monthly Rental	£29.00
Discount Rate (% p.a.)	6.75%
[Optional] Trade-in	£150,000.00
Trade-in Roll-out (months)	6
Trade-in Commencement	M+4

END-TO-END SUSTAINABLE DEVICE MANAGEMENT AT A GLANCE

SUSTAINABILITY

Refurbishment & recycling

- At renewal **rental devices returned and resold**. 96% of devices in DLM get a second life extending the lifecycle of the device by up to 5 years
- **Trade-in program** for your old devices once DLM has rolled out providing a cash fund in return and reducing electronic waste

Carbon compensation

- You're **supporting our investment** into the ongoing programs that reduce carbon emissions and contribute to social, economic & environmental benefits to communities
- For every device taken out on rental, we offset its carbon footprint for the rental period and provide half yearly reports to illustrate your **positive environmental contribution**

1 for 1 programme

- When acquiring phones and tablets by lease, an equivalent number of **devices destined for landfill are collected and recycled sustainably**
- A **six-month report** sent making visible your environmental impact

A SUSTAINABLE SOLUTION

A snapshot of your impact on the environment with your sustainable DLM mobile

WHY CHOOSE VODAFONE BUSINESS DLM?

One-stop shop

One single platform for full **visibility**. Place orders, track deliveries, raise service requests. Integrate DLM into your own systems via Ebonding.

Office anywhere

Keep your teams connected. Retain and **attract talent** with a wide range of devices and the flexibility and freedom to work wherever they are.

Flexible financials

Pay for devices upfront or choose the leasing option freeing up cash flow to invest in other areas by converting the cost from a capital expenditure to an operating expense.

Sustainability

Reduce your carbon footprint by reusing and recycling your devices and by supporting our investment into the ongoing programmes.

Spend less time on logistics

As **your single supplier**, we consolidate your device needs. We stage, deliver to end users, and manage all service requests for you.

Standardised service across regions

Standard service and price across our European footprint providing better control over costs.

Out-of-the-box experience

All your devices are built to your approved design, fully staged and integrated into your MDM platform, **ensuring secure app deployment and reducing downtime**

WHY VODAFONE?

Expertise

Over three decades experience in mobile

Global scale

We've distributed over 30 million devices globally and support more than 300 million mobile customers

Customers first

We continuously invest in and enhance our solution based on customer feedback

Purpose

We aim to build an inclusive digital society

Trusted partner

We take a consultative advisory approach and ensure integrity

Dedicated service team

Support through all phases of the end-to-end device lifecycle

Availability and commercials

Device and pricing flexibility

Forecasting

Proactive forecasting during quarterly business reviews

Deployment-ready

Inventory configured to your exact requirements, ready to deploy

HELPING OUR CUSTOMERS REALISE THE BENEFITS OF DLM MOBILE ACROSS ALL VERTICALS

AUTOMOTIVE

We helped reduce 3rd party IT costs by \$84k per year, making key savings to minimise impact to Capex.

7,600 leased devices, 48-month contract

TECHNOLOGY

We helped manage staging, in-life and repairs to give our customer time back to focus on their business.

3,150 leased devices in 7 countries, 24-month contract

HEALTHCARE

We combined our devices with IoT connectivity to provide critical point of care services to patients.

6,500 devices across 13 countries, 24-month contract

REAL ESTATE

We fulfilled an immediate need with no upfront capital investments, deploying devices quickly at scale.

1,100 leased devices in the UK with EU expansion to follow, 24-month contract

UTILITIES

We standardised and centralised device management across Europe to support a streamlined workforce, recently dispersed and working from home.

44,000 leased devices across 18 countries, 48-month contract

MANUFACTURING

We provided flexible terms with cost savings and managed devices across different countries.

1000 leased devices in the UK and NL, delivered in one big rollout

DON'T JUST TAKE OUR WORD FOR IT...
