

Actively Manage Risk

Empower your team to drive productivity and reduce the total cost of risk with the RMIS built to deliver insight and results

Being Proactive Pays

Active Risk Management is a strategy of empowering your teams to more proactively manage risk by leveraging technology that is centralized, connected, scalable and data-driven to deliver results such as:

21.7% average reduction in workers comp claims costs

50% average reduction in claim lag time reporting

Reduction of administrative burden by up to 12 hours per claim

About Aclaimant

Aclaimant was founded on the belief that everyone has the right to be a better risk and protect what matters most. As the pioneer of Active Risk Management, Aclaimant enables staffing, construction, insurance brokers and carriers, TPA's and others to reduce the cost of risk and drive higher productivity while empowering every employee to be a risk manager. This transforms how companies proactively manage data, people, and processes through leading RMIS capabilities in workplace safety, incident and claims management, and analytics. Thousands of safety and risk management professionals rely on Aclaimant daily to achieve better outcomes.

Bring Key Components Together and Turn Risk Into Opportunity

Safety and Forms Reporting

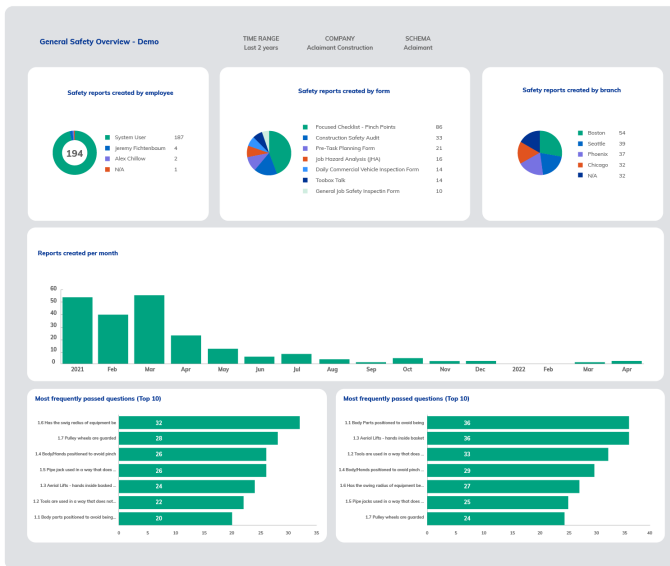

Digitize safety procedures and protocols. Streamline your compliance checklists, eliminate workplace hazards, and identify improvement opportunities.

Dashboards And Analytics

Organizing safety, incident, and claims data from carriers and TPAs into clean and structured data into dashboards can provide unique insights that can be viewed in real-time.

Incident & Claims Management

Electronically submit accurate incidents and claims for triage and escalation. Workflows will automatically trigger your claims process and notify relevant parties.

“The Aclaimant solution made it easy to create efficiencies by putting claims and safety under one umbrella. The digitization of all the forms we use and the ability to access and store them on the platform was extremely important to us.”

Jim Reid, Director of Risk Management at Trillium
