

Built for Teams Org Charts

Frequently Asked Questions

Why choose Built for Teams?

Built for Teams® can save time, improve collaboration and streamline processes by enabling you to:

- Automatically create and keep an accurate org chart.
- Easily share, print and export in multiple formats.
- Explore what-if scenarios, future-state charts and the financial impact of various options.
- Allow leaders to quickly create and modify their own copies of charts for planning.
- Collaborate on org plans remotely like you would on a white board.
- Build succession plans that are fully integrated with your org chart.
- Help new and remote employees quickly understand your organization.

How long does implementation take?

Setting up your org chart takes very little time and effort. Simply connect to your ADP Workforce Now® account and Built for Teams will automatically build an accurate org chart based on your employee data. That's it! And we're here to help at every step of the way.

What type of support do you provide?

We provide a robust online knowledge base full of helpful articles, tutorials and videos. Additionally, our team is ready to assist you through emails, chats and support calls when a more in-depth session is required. We're committed to making sure our product works well for you!

What types of customers do you have?

Built for Teams attracts a wide range of organization types. Here are a few of the most common:

- Quickly growing companies
- Organizations interested in strategic planning
- Companies trying to streamline HR
- Organizations looking for a better employee directory

How much time will this save me?

The average customer saves 20 hours per month, when compared to the other org chart solutions they used previously.¹ For larger organizations, that number grows exponentially. Our combination of automation and an intuitive user experience makes Built for Teams a true cost and time savings for your organization.

Who can use this product?

Built for Teams provides value to people in many different roles throughout your organization, including:

- HR or office staff responsible for creating and updating org charts.
- Hiring managers and recruiters looking to track and fill open positions.
- Executives and department heads responsible for strategic planning.
- Employees searching for the right people to contact within the organization.
- New hires trying to understand your organization.

How do I get started?

If you're already a Built for Teams customer, simply purchase our data connector app through ADP Marketplace. Once you authorize Built for Teams to connect to your ADP® data, you can sync your two accounts.

If you're not yet a customer of Built for Teams, purchase the Built for Teams app from ADP Marketplace. Then you'll be able to sign into Built for Teams with single sign-on (SSO) using your ADP login and start the data import process.

About Built for Teams Org Charts

Built for Teams takes org charts to the next level with real-time updates from your ADP Workforce Now data. Turn your org chart into an interactive, visual portal for your workforce planning data. Create future-state org charts, view potential impacts of org changes, and create succession plans.
