

# Looking to save time on Attendance Compliance?

Attendance Advisor is an automated attendance tracking system that guarantees accuracy and efficiency in managing your attendance policies.

## Advantages of Attendance Advisor integrated with ADP®

Points North's Attendance Advisor automates the tracking of essential attendance metrics for your company. This system saves hours of manual tracking and is designed to be user-friendly for everyone.

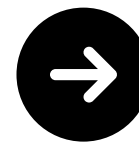

- Save time and headaches (no more spreadsheets!)
- Create a single source of truth for points based attendance
- Simplify automated policy adherence
- Increase attendance compliance accuracy

## API Integration with ADP Workforce Now® Essential Time

Pull in all needed time and scheduling data seamlessly to save time and ensure data is accurate and up-to-date.

## Feature-Rich and Easy-to-Use

Our design is user-friendly first, making previously complex workflows just a few clicks! Track variables, get attendance and quantitative reports, and automatically add or subtract points or credits.
