![Electric®]

# Streamline HR & IT Workflows

Devices, applications, and employee data in a single platform

HR & IT on/ offboarding initiated simultaneously
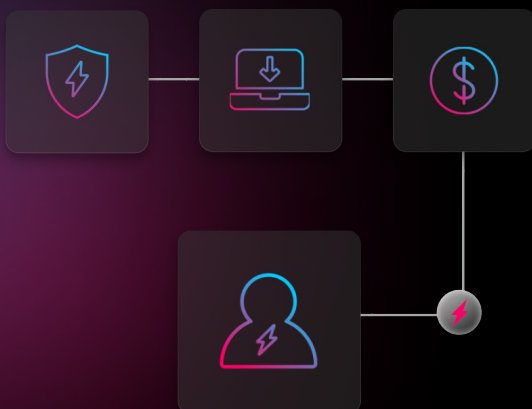

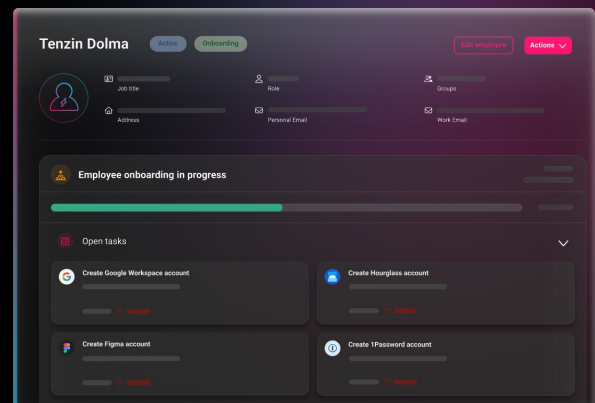

Device procurement, storage, and provisioning

## Electric Integrates with ADP Workforce Now®

One platform to help HR professionals improve employee experience from Day 1 and increase productivity across the employee lifecycle.

### Streamline IT onboarding

New hires' details will automatically flow from ADP Workforce Now to Electric, initiating an IT onboarding flow that ensures employees have access to the hardware and apps they need from day one.

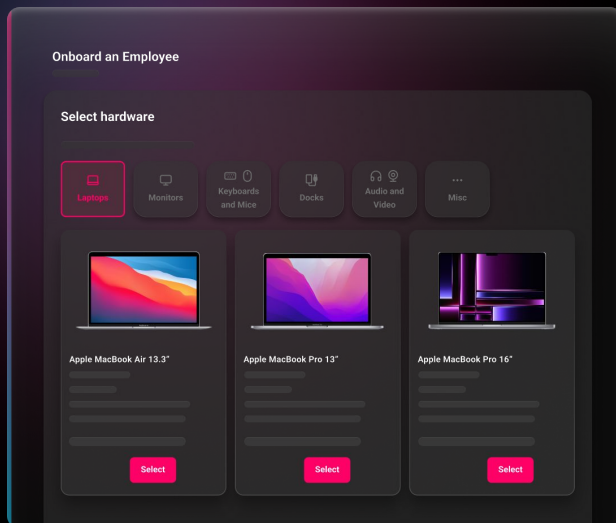

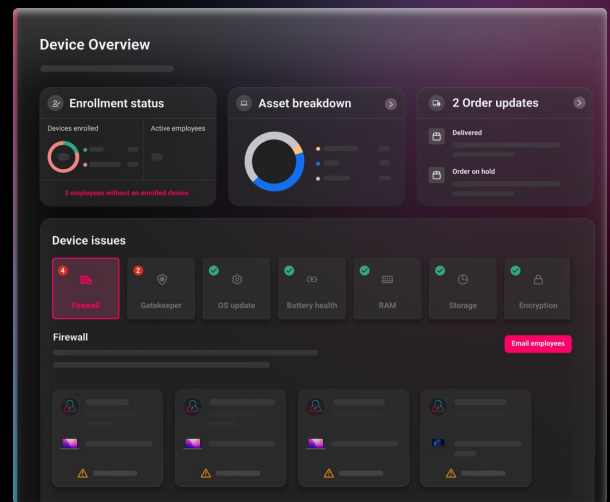

### Securely offboard employees

Automatically revoke employees access to SaaS applications and commence device retrieval as soon as an employee is off boarded in ADP®.

## Full visibility on employees, devices, and applications data

No more outdated spreadsheets. Give employees the devices and applications they need to perform their work from one platform.

## Purchase, provision, and store your devices

Buy new devices from a simple and brand-agnostic storefront, provision new accounts and send devices to warehousing when needed - all from one place and with full transparency.
