boomi

Boomi Corporate Overview

Boomi, the modern iPaaS provider, helps organizations around the world integrate everything and automate anything to orchestrate frictionless processes across systems.

The One Platform for AI Activation

The Boomi Enterprise Platform tackles the digital sprawl of fragmented businesses by combining integration, API management, data management, and AI agent management into a single unified platform to accelerate innovation, lower costs, and enhance security.

WHY BOOMI

2-3x Faster to Implement
Quicker ROI than complex suite vendor tools.

15+ Security Certifications
Unmatched compliance and audit certifications.

25K+ Customers
Largest agnostic integration and automation vendor.

99.99% Uptime
Best-in-class for integration and automation.

Boomi is the only vendor recognized as a Leader in both the Gartner® Magic Quadrant™ for Integration Platform as a Service (iPaaS) and the Gartner® Magic Quadrant™ for API Management.*

Platform services include:

- **Agentstudio.** Empower the design, governance, and orchestration of all AI agents at scale within a secure, no-code environment.
- **Application Integration.** Connect applications, data, and things faster with pre-built integrations and the guidance of over 300 million crowdsourced integrations powered by AI/ML.
- **API Management.** Secure APIs, manage traffic, and enforce runtime policies, with flexible deployment options. Includes support for Boomi and 3rd-party API gateways.
- **B2B/EDI Management.** Modernize your business-to-business/electronic data interchange (B2B/EDI) ecosystem.
- **DataHub.** Get a comprehensive 360° view of your data to drive faster, more confident decision-making.
- **Flow.** Build applications and automate workflows with low-code.
- **Event Streams.** Create high-performance, event-driven integrations with guaranteed delivery.
- **Data Integration.** Simplify advanced end-to-end ELT data pipelines quickly.
- **Task Automation.** Automate routine tasks without writing code.
- **Managed File Transfer.** Automate the secure exchange of sensitive files to meet industry compliance and governance requirements

11X a Leader in the Gartner® Magic Quadrant™ for iPaaS*

RECENT BOOMI INNOVATIONS

OCTOBER 2023
AI Agents
The first integration and automation vendor with embedded agents that integrate using a conversational experience, automate documentation for compliance, enhance data privacy, and more

JUNE 2024
API Control Plane
Introduced a unique federated API management approach to centralize the discovery, governance, and productization of APIs, including "shadow APIs", across gateways

NOVEMBER 2024
API Management Included with ServiceNow
ServiceNow Workflow Data Fabric customers get access to Boomi Cloud API Management to find, secure, and manage ServiceNow and 3rd party APIs

DECEMBER 2024
Task Automation
Unveiled a new solution to automate repetitive tasks, designed for business users and embedded directly within the platform

DECEMBER 2024
Data Integration
Expanded the platform with modern data integration capabilities to streamline data movement and transformation

FEBRUARY 2025
Comprehensive APIM
Commenced rollout of end-to-end API lifecycle management featuring governance, robust security, traffic control, and AI-driven support for faster, confident delivery

MARCH 2025
Agentstudio
Delivered the first and only solution for complete agent lifecycle management with the ability to rapidly create agents with no code and control all agents across the organization

MAY 2025
Model Context Protocol (MCP)
Embedded native MCP support in the Boomi Enterprise Platform and enabled Boomi Agentstudio to access tools via MCP

SEPTEMBER 2025
Agentic Advisor Patents
Enable non-integration experts to rapidly integrate and automate by leveraging trained LLM models and best practices for guidance and preventative error avoidance (US 20250258729/11886965/11847167)
